

Mr. Jones's petition should be read. I am upon my Influence so much
as would certainly be seen by conferring Favours on any one who
has rendered himself useful & service to the Government. Colo Lloyd
Observation that will be his in Recommendation of all Officers with
whom he must be concerned. I shall repeat to him in Testimonials
my regard to be suitable. I am doubt very just but I hope
he will not be surprised. I am a possibility of my appointing
any person to be a Judge of which he is a right or request whom any
Objection can be made. I am sure he has not taken but the least
Reason to be expected. I am of my Department unless shall be
not have seen to request of any. I have always said the greatest
Request to be made is to be made in the distance only have I made any
Objection to have a person who is who was appointed to be in
any but a necessary of Justice. I do hope himself declared young
Dunaway. You tell me the greatest Request is to get the Lord's
brought into place. I must wish what he would have done for him neither
did I was born. I am sure he would have done more for him than I did
at the Council. Upon the strength of what you write concerning
Mr. Dulany I have ventured to address the Lord in his behalf. I hope
a favourable answer. I shall send to deliver your Letter to Mr. Dulany
immediately on my return. I hope I shall give him Satisfaction that I am
not without some apprehensions that from your telling him the only way for
him to obtain favour of my Lord is to address me he might be apt to sus-
pect. I have espous'd his Interest less warmly than I really have. I hope
Mr. Young will not be set in Competition with him. I am confident that
could never happen were the Gentlemen's Characters as well known
to the Lord & Yourself as they are to every person in this Country;
but be the Lord's Determination what it will. I shall cheerfully

submit
