

213  
me by some who I believe had their Views in doing so in such a Sight as  
prejudiced me greatly against him but his Behaviour in the Lower House of  
Assembly since that time as well as the Behaviour of his Brethren have been  
very unexceptionable & as to that particular Vote, which Mr Calvert mentions  
I do not for the Reasons that I gave him in my Letter of the 19<sup>th</sup> of April think  
there was much in it: A similar Case, happened this last Session with Doctor  
Stewart when the Affair of a College, was brought on the Carpet, he being obli-  
ged to Vote against his Inclination for Appropriating the Ordinary Lycence  
as a Fund for its Support, or run a great Risk of being rejected at the  
next Election by the Inhabitants of this City, many of whom expecting to  
receive vast Advantages from such an Institution were apt to think every one  
an Enemy to the Town who would not Vote for a College at all Events, &  
indeed My Lord it often happens that many of the Members find themselves  
under a Necessity in order to keep fair Weather with their Constituents to Vote  
differently from what they would willingly do. With regard to the other  
Objection which I understand Your Ldp makes to Mr Goldborough that he  
did not attend constantly I must beg Leave to observe to Your Ldp that as  
the Lawyers here reap the greatest Advantages from attending the Business  
of the County Courts which are held in March June August & Nov: it can  
not be expected that such of them as are in either House of Assembly would  
forego those Advantages for any Reward they receive for attending the pub-  
lick Business, besides was a Lawyer to neglect attending one Court many  
of his Clients would address themselves to others & so he would entirely  
lose their Business, these Answers to Your Ldp's Objections having been  
to me on reading Mr Calvert's Letter I thought it my Duty to submit them  
to Your Ldp's Consideration, if there are any other Objections to him I  
should be glad to be acquainted with them that I may consider them.
