Copy of 103 Letter to Mr Calvert Dated the 7 Aug^r 1761

Sir Captain Curling having at length been pleased to send me from Patuxent
 the long Box which was committed to his Care containing Your Letter dated the
 8th of April, the Mathematicians Answer to the Queries that were submitted to their
 Consideration, the Telescope, Sector & sundry Magazines & Gazettes I dispatch this
 on board Capt Walters who is expected already under Sail that You may be advised
 of my having received the abovementioned Articles at the same time that
 You get my Letter of the 3rd Inst wherein I expressed some Uneasiness at not
 having had the pleasure to receive a Line from You by the Fleet. If the Theodolite
 was also dtd to Capt Curling I presume I shall get it when he has another Oppor-
 tunity of sending any thing hither. If Mess^{rs} Hanbury gave him any particular
 Directions about delivering the Box he must have been very forgetful for when
 he brought me a Letter from those Gent^l a Day or two after he arrived I asked
 him particularly whether he had not a Packett or something else for Mess^{rs} Hanbury
 Your packett to Col: Lloyd contains protested Bills, it shall be forwarded to him
 by the first Opportunity - Jan 2
