 The Governor & Council have resolved to appoint you, Mr. Lewin Gale and
 Mr. Thomas Jones Esq^r of Baltimore, Judges of the General Court. We
 shall be very glad that you can make it convenient to act in that hono-
 rable Department and shall be obliged by your Answer.
 William Hayward Esq^r We are &c.

140. Sir.
 In Council Annapolis 8th Aug^r 1747.
 We inclose you a Letter & Instructions to Conway and a Letter to the
 Governor of the Havanna; he pleased to peruse them and, if you think any
 material Part improper, we shall be obliged to you for your Remarks
 and will gladly correct any Thing amiss. We doubt whether Conway can get
 out; from the last we heard from Virginia, the Men of War still continue
 at & about the Capes. If you think it prudent to risk, advise the Captain
 to go, if not, we do not intend his Orders for sailing as absolute. If you
 think the Sydia's Yawl necessary for Conway, he may take her and
 we'll look out for another for the Ship - You see we intend Conway
 to have the Management of every Thing on board.
 Col^o Hooe. We are &c.

141. Sir.
 In Council 11th Aug^r 1747.
 We owe Col^o Hooe a pair of three Pounders Guns; his Vessel, in
 which they are to be put, is to sail on Wednesday; we have sent a
 Waggon on purpose to you to get two of those you were speaking to us
 of, and, if any of them have Carriages, send two of them; we are much
 obliged to Col^o Hooe nor would, by any Means, disappoint him.
 Mr. Stephen Steward. } We are &c.

142.

142. Sir.
 In Council Annapolis 13th Aug^r 1747.
 We have drawn the Orders for your Account and for the Advance of £ 100. The
 Difficulty of manning the Gallies is so great, that it is highly improbable the one
 now on the Stocks, can be applied to the Purpose originally designed. If she
 be advantageously employed to bring Wood for the Soldiers we think, by filling
 her merely for that use, we might save a good Deal to the Public and provide
 better for the Troops, than we shall be otherwise able to do. We shall
 be obliged to you to advise us whether the Galley may not be convenient
 used for the carrying Wood.
