Several People have brought in their Accounts against the Publick; which
we cannot pay for want of their being passed by you. We therefore wish you
160. two of you to remaine, for a while, to some Place where the Claimants wait
on you for the Examination of their Accounts. We are Gent: Yrs

Sir.

In Council 10th Sept^r 1777. —

We are sorry to hear that you cannot, from the Scarcity of Guns, forward
the Proportion of the Washington Militia tolerably armed; we have
161. already assembled nearly as many as we can arm, unless our Application
to Congress for a Supply, should meet with Success, but the Event
of our Request is not yet known. Wherefore we wish you to stop the
March of the two Companies desired from each Battalion, for the present
and get them prepared in the best Manner you can for moving immediately
on further Orders. If we get a further Supply of Arms, they will be called
on, or if we get no more Arms, they will be wanted to relieve some of the
Militia already on Duty. Possibly our Affairs may make it necessary
to collect all the Fire Arms, we hope not, but it is best to provide in
Time against the worst; therefore we wish an Account of all guns to be
taken and those which want small Repairs, we request you will have
repaired at the Publick expence. If the Militia should be ordered to march
we wish them to carry with them, all the Arms they can, and, if the Publick
can provide better, their own may be carefully kept till they return. We
shall be obliged to you to have wooden Bottles and Camp Kettles made
ready to put into the Peoples Hands. — We are Yrs

It is probable that we may, in a few Days, order the Prisoners who are
at Queen Ann, to Annapolis; therefore we would have you suspend the
162. Execution of the former Order, for their Removal to Frederick, but we
hope that the little Time they stay at Queen Ann, there will be more
Attention, for the frequent Escapes of Prisoners, is a strong Encouragement
to the Disaffected to hazard Imprisonment by their Conduct. — We are Yrs
