Major Smith mentions to us his Removal of the Sick belonging to the Matrios Company, from the Town to the Port which we approve of and intend the Hospital shall be kept there for the future. We have appointed Lieut. Sir.

We send you by Mr. Setherbury, £1500 which we request you'll lay out in the Purchase of Pork for the Use of this State: we wish you to make the Purchase as soon as may be. If you should have an Opportunity of laying out a further sum, we request you'll do so, to double the Quantity which the Money sent will buy. Salt shall be sent you in Time and more Money, if necessary. We hope the Pork will not exceed 20 Dollars a Hundred; if the best in Quality, and in pretty large Quantities can be got for that, we would have you agree. We shall be glad to receive a Line from you soon, advising us of your Expectations
