

209

Sir.

In Council 6th July, 1781.

We enclose you the Petition of Joseph Wattis which has been
No 609 handed to this Board, as we are totally unacquainted with the
Signs of the Petition, think it proper to refer the Matter to
you. If it should appear to you that he is not fit for the
Service, you will then discharge him.

Lieutenant, of Montgomery County.

In Council, 7th July, 1781.

Sir, Representation has been made to us on Behalf of Patrick
Cawley, who was made a Prisoner of War some Time in June, 1780
and released on Parole, the Terms of which are that he should get
a British naval Prisoner exchanged for himself within Six Weeks,
and at the End of that Time deliver himself up to the British
Commissioner of Prisoners in New York, neither of which has been
complied with; and that Col Smith insists on his ^{entering into the militia and} doing Duty.

610 Before we decide this Matter we wish to be fully informed of the
Circumstances of this Case, and whether there is any Suspi-
cion of any Collusion or improper Practices between him and the
Officer that took him, and that the real Design was that Cawley
should remain here and the State be deprived of his personal
Services. As soon as you report Cawley's Case we
will determine on it and communicate our Opinions to you, and
in the mean Time we would not have him compelled to act
in the Militia.

Andrew Buchanan Esq:

In Council, 9th July, 1781.

Sir, We desire to be immediately informed what State the Four
Pound Carriages are in, how many are finished and how many
611 on Hand, what Quantity of Iron will be sufficient. If all the
Carriages we directed you to make are not on Hand, we would
not have you begin them.

Capt George Keopuls.
