

In Council April 30th 1789 43

Gentlemen,

We have received your Memorial respecting a quantity of Salt lost by you in consequence of the flood on the twenty fourth of July last, but it does not appear that you have made any allowance for wastage which we think you ought to have done - we therefore request that you would on Oath declare to the best of your belief what loss it may have sustained by being so long stored.

In Council May 4th 1789

Gentlemen,

It appears from returns made the Board by the Treasurer of the Eastern Shore, that no Bond for the Collection of the Land Tax for 1787 has been forwarded to the Clerk of the General Court - We are at a loss to account for the Delay and request to be informed why it has not been transmitted - It is our direction that it be immediately done

We are Sir
James Brice Esq
