

69.

In Council September 17th 1789

Sir,

81. Thinking it high time for the Board to take conclusive arrangements, respecting the property of the delinquent collectors we have by Letter of this date requested the early attendance of Mess^{rs} Hindaman and Hall of which we take the liberty to inform your Excellency in hopes that as soon as your health and convenience will permit it, the business may be taken up by a full Board —

We are very respectfully Sir
Your Excellency's

His Excellency
Governor Howard

Most Obedient Servants
James Brice Puris^t.

In Council September 16th 1789

Sir,

82. We conceive it of great importance to the interest of the State, and the reputation of the Board that definitive measures should without further delay be taken respecting the property of delinquent collectors already taken and bought by the State or liable to execution and sale — The property already in the hands of the Western Shore Agent is very considerable — He is at a loss how to proceed with regard to it, and as it made by Law a part of his Duty to dispose of it to the best

(Advantage)
