

Received May 20<sup>th</sup> 1793.

Sir,

We have been honoured with your letter of the 26<sup>th</sup> ult<sup>o</sup> covering the proclamation issued by the President of the United States respecting the conduct to be observed towards the powers at war in Europe; - and we have issued a Proclamation conformably to the sentiments contained in that of the President - Since that time we have received from Mr Hamilton British Consul at Norfolk - the letter of which the enclosed is a copy - The captured vessel is contrary to Mr Hamilton's information, in Choptank river on the Eastern Shore, and will probably be given up to Capt. Tucker by the Naval Officer of that District, who has as we are informed taken her into his care upon her being abandoned by the captors - We have acquainted the Consul with our incompetency in point of authority to interfere even supposing the capture to be illegal and have advised him that it can only be obtained from the general Government - Gleaming the situation of the United States with regard to the powers at war to be extremely critical, and

(Concerning)
