

A considerable time elapsed between the date of the above return and the delivery of it by the Sheriff, owing probably to the severity of the season. This circumstance must be our apology for having so long delayed this communication. We enclose an open letter to the Sheriff of Caroline instructing him to conduct the two persons in question to whatever point of the boundary line of the two States and at whatever time your Excellency shall appoint, and there to deliver them into the custody of the person who may appear properly authorized to receive them. These Instructions will we presume be forwarded to the Sheriff of Caroline - and accompanied with a Designation from your Excellency of the Time and place when and where the parties apprehended are to be delivered. If any returns should hereafter be made by the Sheriffs of the two other Counties we shall give your Excellency the earliest Information of it.

We have also to acknowledge the Receipt of your Excellency's letter of the 6<sup>th</sup> of February last with its Enclosures relative to a certain John Welch who has been indicted for Manslaughter by the Grand Jury of Sussex and fled from Justice into this State - Process has been issued to apprehend him according to your request - of the Execution whereof your Excellency shall be apprized as soon as it is made known to us.

His Excellency

Governor of Delaware
