

In Council Annapolis August 30 1796

Sir,

In addition to the trouble we have given you respecting the sale of the arms from Easton, we now send to your care a number of articles of Military Stores from Annapolis, which we wish you to dispose of on the best Terms that you can for ready Money or negotiable Notes on a short Credit, so that the Money can be received and the accounts closed before the meeting of the general Assembly. We have likewise sent a few articles to your care in order to be forwarded to Frederick Town directed to Nicholas White the Armourer there. Any expence attending this part of the Business you will please to draw on us for immediately. We shall be glad to hear from you soon on this Subject, and also with regard to the articles sent from Easton. We enclose a List of the articles to be sent to Frederick Town, and a Letter to Mr. White directing him to receive them.

In Council Annapolis September 12 1796

Sir,

We find on looking over the articles of Military Stores referred to in our Letter of the 30 ultimo, that some of them are so indifferent as not to be saleable, and some others we have
