

Executive Council Chamber, Annapolis Sept. 23. 1819

Respectfully A Petition praying the Executive to
relieve J. & C. Harford from a fine that was
imposed on them by Cecil County Court at September
term instand, has been received at this Department.
It is necessary that the Executive should be
furnished with a transcript of the proceedings of
the Court prior to their acting on it. The Court
will meet the second Monday in October.

A late letter which I have received from
Mr. Hagner, it appears that he is progressing in
the examination of the Maryland Account
and that he is a prospect
of its being soon finished. The first portion of
it is now under
your hands that I make it
different heads relates to the pay of the militia
which has been nearly gone through. The second
portion which consists of supplies furnished
to the militia (by) contributors and other, ought
to be but a short time in its examination
there is nothing to excite of much
difficulty or trouble, except a few contractors
