

March 10.. 1820.

Dear Sir

You did ~~send some~~ send some papers to me by mail and they are now on file in this Department except two or three muster Rolls, which were sent on to Washington. The Papers that ought to have been left with you by Mr. Meredith would have filled a large trunk. All the original papers relating to Contractors accounts, viz. orders of the Contractors for the delivery of the rations, muster rolls &c should have been carefully filed by him - I have letters from several gentlemen who had their accounts passed and they say that the vouchers were left with the accountant.

Yours respectfully

Vinian Pinkney

Richard Harwood Esquire.
