

May 22nd 1890

During the late war with
Britain a number of arms were
left in the hands of the militia of
the Brigade. Will you be please
inform me whether there are
at this time remaining to
possession - 2936 stands of those
loaned to the militia of
Baltimore are that of other parts
of the State since April 1812
remain still to be ~~accounted for~~
The officers of the respective
companies would give their aid in
having the arms to be collected in
the respective Districts - They would
also promote the interest of the
State. The muskets cost on an average
out \$12. a stand

Yours
Tobias E. Stanbury
