Dear Sir,

Upon the receipt of your letter of the 14th January asking for information relative to the responsibility of the estate of the late William Garrison for a sum loaned him by the State, I filed it with other papers for the Executive to act upon, not feeling myself authorized to answer you without consulting them. I am now instructed to state to you the facts as they exist from which you will understand how far his estate is responsible, if at all. It appears from a Report, the Chairman of Easton, that in the year 1824 Captain Garrison obtained from the [unclear] there fifty acres of land and Bond has ever been given, either by him or any other person. Where the money now is, we have no knowledge.
