Sir,

Council Chamber
Annapolis May 17 1831.

I have received yours of the 3rd instant, with a certificate of your qualification as Surveyor of the County. I am not aware that any additional instructions have been issued by the Governor and Council to Surveyors, since those provisions being proposed and upon deliberation, I have been able to make have not found any will do.

Gentlemen,

Council Chamber
Annapolis May 25 1831.

I have received yours of yesterday and observed its contents. During all the time that I have been Clerk of the Council, the National Intelligence has uniformly been designated as one of the papers to publish official acts of the State, when the selection has been altogether left to the executive. I have no reason to doubt but that this will still be the case.

In ordering the publication of certain acts of the Legislature, which I presume you have seen in the paper, recently, the Governor and Council merely carried into effect the directions of the general Assembly, which required them to have said acts published in certain number of newspapers within the State.

I will lay your letter before the Governor and Council at their next meeting.

Wm. Galt Stanton
Editor of Nat. Int.
Washington.

With great respect
I remain your Obedient
H. G. Cullbreth
