

Physicians who have volunteered their services in view of the probability of events shortly to occur before Yorktown

The List as you will perceive embraces two classes - the one those who are ready to render their services wherever required, whether at Yorktown or here, and the other consisting of those who are unable to leave the city but willing to render all services required here or in this neighborhood.

I write from Baltimore, where I shall probably be until Monday afternoon; any despatch you may think it necessary to forward to me in that interval should be addressed to care Dr. W. H. Spadford, corner of Bisquit and Orleans Sts

I have the honor to be,

With great respect &c
A. W. Bradford

List of Physicians in the City of Baltimore who have volunteered their services to go to Yorktown Va. or to render their professional aid at any other point that the Secretary of War may direct if made necessary by the expected conflict at that place
