

amount of checks drawn from time to time in payment of said expenses.

The last payments by me on that account were made nearly a year ago, and I presume no other claims will be presented — Indeed I should have called the attention of the Department sooner to the subject, but that a press of other business has caused me at times to overlook it, or left me without the opportunity to make out the account.

This I have now prepared, and herewith transmit, and have connected with it an account of a portion of the Substitute "Fund" which came into my hands under the circumstances therein mentioned, and was immediately deposited by me in Bank to the credit of the same account.

The aggregate balance on these several accounts in my hands is \$5039.46 standing to my credit on the bank account aforesaid and for which I will forward my check whenever you may direct to whom it shall be remitted.

Very Respectfully  
Your obt. Servt.

A. W. Bradford
