

Ans. I do urgently recommend that the institution should be made subservient only to the treatment of lunacy, because there should be such an institution in our State; and it is a fact well established that lunatics should not be mixed with other patients. The rules for the two classes of patients do not harmonize.

Inter. 16. What proportion do your lunatic patients bear to those from other causes and diseases?

Ans. We have at this time sixty-one patients in the house, of whom fifty-three are lunatic and mania a potu patients.
