

The Lower House that in regard the last paper sent from this house to the Lower House may not so clearly express the Intentions of this House in that Clause relating to the Muster Master Generalls Fee We have thought fit to declare that the Intentions of this house is that in case the Act for the Support of the Government during the Life of the now Lord and Proprietary &c. do pass for two Shillings & 6d. That then the Act for the Muster Master Generalls Fee shall for ever stand repealed & not otherwise

John Rowby Clerk of the Assembly.

Upon petition to this house made by Ignatius Lawin to be naturalized of this Province. Upon debate of the matter it appeared that the said Ignatius was the Son of Nicholas Lawin a Subject of the Crown of France born at the Towne of his said Father in St. Georges River in this Province of an English Mother that the Lands claimed by the said Nicholas were only surveyed in the life time of the said Nicholas and since his Death patented by the said Ignatius Whereupon this house do declare that the said Ignatius is by his Lordships Charter a free Denizen of the Kingdom of England and by consequence as to his Person needs no Naturalization being born here and as to the Lands said.....

to descend from the Father this House do further declare that the Certificate of Survey was only a Chattel real of ^{which} his Mother an English Woman was seized & made over to him the said Ignatius in right of which he obtained an Original Grant from the Proprietary & so holds nothing by descent from the Proprietary his Father but is to all Intents & purposes One of the Natural born people of this Province and hath as much Security for his Lands as any other Person in this Province now hath or the Rt. Honble the Lord Propriety can Grant -

John Rowby Clerk of the Assembly

The Lower House sent their Votes to this House in these Words viz
Friday 7th April 1671
