

Brought unto this house the following paper which was ordered to be  
read Vizt.

There was about two Days agoe a new Canoe full of Indians at the  
North point of Potapsco, and there was a boy went to look after cattle, and  
his Dog run out and bayed at a Squirrel, and it is supposed that the said —  
Indians thought that some English was coming upon them which made them  
take over a creek within the North point it being a little before Sun going  
down, the next Morning I with some others went out to know what they  
were, and their Business but we could not see them, nor no Sign of them  
it is thought that they are evilly intended by theirs carriage, and that they are  
the same Indians that did the Murder at Point look out last year; for they were  
first Discovered last year here before that they did the Murder there, thou may  
please to inform the Inhabitants about them, The said Indians was seen by  
several of the North point People when they went over the abovesaid Creek  
and there is now this Morning gone out a Party of Men to make a further  
Discovery, and to know what the said Indians are but as yet I have not heard  
any thing what they have Discovered; nought else but my Love  
The 29th of 2d Month 1682 Charles Garswick
