means of canals and such other works as may be found necessary for that purpose, with a communication from the Engineer and Commissioner on the part of this state relative to advances made by them for defraying the expenses of the aforesaid survey.

No authority has been given to the Executive, to advance funds or settle accounts growing out of said survey; and it was only because of the pressing necessity of the case, that the sum of three hundred dollars, as mentioned by the Engineer and Commissioner, was advanced by the Executive during the recess of the Legislature. If the advance had not been made, the commencement of this important work would have been injuriously delayed, and the advantages, expected from its completion, unseasonably postponed. We now submit the whole subject to the Legislature, to make such provision for the payment of expenses and compensation, as may be deemed proper.

We also herewith transmit to you a communication from the visiters of the Jail of Baltimore City and county, together with the papers it envellops, in relation to the expenses growing out of the recent riots on the Baltimore and Washington Rail Road, for such action as the Legislature may deem proper and consistent with justice.
