

Laws or acts Assented to by your Hono^r and this House and passed the Great Seal here before her most Sacred Majesty disallowance thereof signified should be hold for Null and void by some of the Justices of the provinciall Court, And particularly the Act passed the last Session for relieving some Aggrievances for notwithstanding that Act as the pet^r set forth severall persons are still sued and prosecuted, for small sums we cannot but conceive and agree with the pet^r that Attorneys are encouraged to do, by favour of the person that in the said Court acts both as a Judiciall and Ministeriall officer; We assure your Hono^r we have noe other end therein but out of due and tender regard and duty incumbent upon us to endeavour to redress the Aggrievances of the people we represent And doe with all dutyfull respect lay the said Aggrievances before your Hono^r not doubting or any ways apprehending but that your Hono^r will notwithstanding the relation between the person and your Hono^rs Board, have a just and tender regard to the satisfaction and relief of her Majesty's ^{subjects} and in your wisdoms redress such Aggrievances, as are layd before you by the Representative body of this Province, And we conceive this to be one of the first rank, and worthy your Hono^rs Consideration and tho' we can have noe suspicion of that Gent^ls Hono^r and integrity, yet we crave leave to say, it is an ill precedent and may be of ill consequence, if in proof of time any avaricious or designing person should be in that station
