

I will not design to interrupt a good correspondence with you and were not conscious to our selves we had any just or colourable reasons you would respect any of the Bills we have proposed this Session — And tho' you say you have endeavoured to do off the greatest Aggravances we represented at the beginning of this Session we must affirm and can justify 'twas hardly obtained and had not this Assembly been called there would ^{have been} no occasion for our desiring,

We shall not further press your Honors in these matters but hope ere long a Cap. General will arrive fully instructed empowered and inclined to relieve us out of the Aggravances and Grievances we must till then passively endure.
