 Signd J. Ord. W. Bladen C. & C. Orderd it be read to Morrow
 Morning for consideration - Sam. Young Esq from the Council sutes
 his Hou's and delivers M^r Speaker the following Message viz
 By the President and Council in Assembly Novemb^r 30th 1753 -

This Board observing that the Act prohibiting the importation of
 Bread Beer Flower Maule wheal or other English or Irish Grain of
 Meales Horfes Mares Cotts or fillys from Pennsylvania and Expires at
 the End of this Session do recommend to the Delegates that the said Law
 be revised having been Experienced to be a beneficiall one and may
 still be so, especially now the trade for Grain in this Province is
 beginning to flourish by sundry Vessells built in the Country Capable
 of exporting great quantities as well as diverse Vessells on pur-
 chase from the Northern Plantations and that it may be of preju-
 dice to the farmers here to have the Pennsylvanians import their Grain
 and pick up the ready money and bills of Exchange by which and other like
 practices they have heretofore suckt the very Marrow of the Province

However we think it necessary to insert a Clause in the Revising
 Bill to give Liberty to any the Commanders of Her Majesty's Shipp of
 war in this Province to purchase Bread Flour or other provisions
 for the use of Her Majesty's Shippes only and import it or cause it to be
 imported from Pennsylvania or else where any thing in the aforesaid
 Law to the contrary notwithstanding. Signd J. Ord. W. Bladen C. & C.
