

In Order you his Son should bring witness to your Edging —  
dated the tenth of October last his Being the first Some of the Making of his  
Spendings since he did — By his Council you will find his Exps had the  
goodness to promise you that no person should be allowed to any Expence  
that was not Qualifie themselves by Law before now Acquaint you that it  
is their Exps pleasure actually to remove them —

These unqualified Persons Remaining Offices in the Maner  
then did — that is in such of Churches and Mission as it is made —  
much unreason in the making of a great Majorly of the people —  
hope the speciall care that has been taken by the Lord Proprietary —  
and your self for their speedy Removal from their Employment will  
put an end to all such an — Amongst — the rules of  
your Complaint being now Removed it is justly expected the Effect  
should cease of your Lord should not you will show your substance —  
Protestants indeed by your charitable Means — to your Neighbour of

bearing of Offices alone becom'd to my knowledge this would be thought  
an unreasonableness to be kept by this Sort of men who since in the Roman  
Dominion if nothing more was expected from them than a Dutyfull  
Subsidiion to the Laws of their Country — which now is state will soon  
begin to be infringed —

It has been your Reasond Recommendation to you the  
since the City of Propagating Learning in this Province by making  
some eminent provision for Schools and to avoid the danger of these  
was a foundation a Seat for them in every part — But why then is  
the Honour Encouragement given by the King that are desired for  
the Maintenance of Schools are of so inconsiderable value that in  
all you think proper to make better Provisions so that you are oblig'd  
in such the selection of Languages is to begin to remove the Priviledge
