

Power in whose duties and goodly & happy & experienced
we reject these Conventions by continuing us under their ma-
jesty's administration of your Excy so partly an Sponsor of the
several Establishments both in Church and State

We were not ignorant of the plotting, unquiet and unquiet
tempers as well as proud and insolent behaviour of Mr & Mrs Murrum
ever since his first coming into this Province but more especially
since he has had the opportunity to intimate himself into their
Familiarity: Gods grace Which we would God he never could
have done if their Familiarity had been as well requir'd in
his Government and Purcell as in case of which is: that's for
shall betwixt us & him. — We doubt but he may have left
you to doubt of their reported former. —

We have considered wth your Excy has been pleas'd
to lay before us the Causes of your suspending him from
practising in the Province Court and use of that the act
of Liberty of this Province has inserted a sufficient Authority
in all the Courts of it not only to admit but also to dispend act:
or others Practitioners of the Law from practising in them upon
his ill behaviour: which the several Courts are the proper Judges
of without the Importation of being both Judge and party but
if the Authority of any of his Familiarity Courts should be
abridged in this point it would be impossible for them to preserve
such Decorum as is absolutely necessary in judicial Proceedings
but under his Familiarity Authority in the persons of his Judges
Lynde to the reproach of every Murrum's Tongue, and as we take
it Mr Murrum was by his benightedness upon knowing the right
Honourable the Lord Guilford's Letter to him entered in the Pro-
ceedings of the Province Court seem'd to have some hopes he
might be disappointed in his practice in that Court: but being ob-
liged to shew it does report, as we have done by his Familiarity
news Designed should be made of it —

Thus we have faithfully and impartially con-
sider'd what your Excy has been pleas'd to lay before us and
think our selves oblig'd to return our humble thanks for the
Assurance you give us of your Excy's Administration
