

So this House by passing their Resolutions to your Honours y^e we find their so firm by voted to maintain the Authority of their y^e Resolutions against the many bold & insolent Attempts of Mr. Maccumers to the Discouragement of such as for the future shall fly in the face of Government &c

And we cannot but observe from the Enquiries - from the Records of Parliament that Mr. Maccumers has not only been obnoxious to Government here but in other places where he had any residence y^e we have his Appearances well & sufficiently Enquired that the Prosecution against Mr. Maccumers here have not been carried on by partiality for that he has undergone the same Fate & Exile in other places purely thro' his own haughty ambitious Temper and ill Conduct -
