Colo Tilghman from the Upper house Delivered Mr Speaker the following Message July 22^o 1721
By the Upper house of Assembly July the 22^o 1721

Gentlemen It is found by Experience that the Act for admitting the Continuance of Actions
is rather a prevention than a furthance of Justice for that so many Inconson-
Casualties frequently happen in the course of Legall proceedings that a certain time
cannot be Limited for their Continuance without imposing Inevitable hardships
On the Suitors, against the very Right of their Causes and whereas that Act imposes
(and not unjustly) the penalty on the parties that is in fault it sometimes happens
that Causes are Continued without fault of either parties as it happened the Last
Broo^o Court when in many Cases was the parties were willing on all sides their Cases
could not be heard for the vast Number of Criminal prosecutions that took up almost
the whole time of the Court tho it sat longer than any Court for many years has
been known to do, It would be tedious to Enumerate the many Instances that have
happened since the Making that Law and which may hereafter happen wherefore
we do not think it advisable to continue that Law unless you could provide against
the Sickness or other Casualties Incident to the Judges the Evidence the Parties and
Officers and generally in all Cases where the Act of God may Intercede w^{ch} is Impossible and
therefore we recommend to you the preparing a Short Bill for the repeal of that Act and to
save to the parties that suffered last Broo^o Court by that Law their full Right to
proceed in their respective Causes as if such Act had never been made

Signed of Order John Beale Clerk of the House

Signed of Order M. J. Fisher Clerk Upper House

And sent to the Upper house by Colo Mackall and Colo Hyuson
they return and say they Delivered it - Ordered the foll^o Message be prepared

By the Lower house of Assembly July the 26^o 1721
We have reced your Message by Colo Tilghman recommending to us the Repeal
of the Law for admitting the Continuance of Actions in the severall Courts and
having seasonably Considered the same are humbly of Opinion that the Intent
of the Law as well as Express words relating to the proo^o Court do Impat that
the Jurisdiction of the said Court doth Extend to the Expiration or End of four Courts
Exclusion of the Apperance Court which Length of time doth seem very suff^o to us
to Dispatch the business of the same for w^{ch} reason we cannot Decline to make a
Repeal or any Alteration of the said Law Adding further this Consideration that
