

Therefore as that would lessen the necessary Provision for our present Safety against our foreign and domestick Enemies, as well as contradict our former Resolution about the Determination of Money Bills, we cannot agree to your proposed Expedient.

You have now the Bill for Encouragement of his Majesty's Levies, in your Possession, and we have put it in your Power, by sending down our other Bills with their usual Duration, to have that for Defence of the Province, so that we hope it will not be imputed to us that they are not Passed into Laws.

Signed per Order, *M. Macnemara*, Cl. Lo. Ho.
Sent to the Upper House by *Mr. Smith* and *Mr. Wootton*.

The House Adjourns to Monday Morning at 9 of the Clock.
