

THE conference proceeded to take the subject matters to them referred into their consideration, and thereupon came to the following resolutions:

That it is the opinion of this conference, that the removing the obstructions in the river Patowmack, and the making the same capable of navigation, from tide water as far up the north branch of the said river as may be convenient and practicable, will increase the commerce of the commonwealth of Virginia and state of Maryland, and greatly promote the political interests of the United States, by forming a free and easy communication and connexion with the people settled on the western waters, already very considerable in their numbers, and rapidly increasing, from the mildness of the climate and the fertility of the soil.

That it is the opinion of this conference, that the proposal to establish a company for opening the river Patowmack, merits the approbation of, and deserves to be patronised by, Virginia and Maryland, and that a similar law ought to be passed by the legislatures of the two governments to promote and encourage so laudable an undertaking.

That it is the opinion of this conference, that it would be proper for Virginia and Maryland each to become subscribers to the amount of fifty shares, and that such subscription would evince to the public the opinion of the legislature of the practicability and great utility of the plan, and that the example would encourage individuals to embark in the measure, give vigour and security to so important an undertaking, and be a substantial proof to our brethren of the western territory of our disposition to connect ourselves with them by the strongest bonds of friendship and mutual interest.

That it is the opinion of this conference, that an act of assembly of Virginia for opening and extending the navigation of the river Patowmack, from Fort Cumberland to tide water, ought to be repealed.

That it is the opinion of this conference, from the best information they have obtained, that a road to begin about the mouth of Stony river may be carried in about twenty or twenty-two miles to the Dunker Bottom on Cheat river, from whence this conference are of opinion, that battoe navigation may be made, though perhaps at considerable expence; that, if such navigation cannot be effected, by continuing the road about twenty miles further, it would intersect the Monongahela, where the navigation is good and has been long practised.

That a road from Fort Cumberland to Turkey-Foot would be about thirty three miles, from whence an improvement of the Youghogany river would be necessary, though probably it might be done at less expence than the navigation of the Cheat river could be rendered convenient from the Dunker Bottom.

That it is a general opinion, that the navigation on Patowmack may be extended to the most convenient point below, or even above the mouth of Stony river, from whence to set off a road to Cheat river; and this conference is satisfied that that road, from the nature of the country, through which it may pass wholly through Virginia and Maryland, will be much better than a road can be made at any reasonable expence from Fort Cumberland to the Youghogany, which must be carried partly through Pennsylvania.

That it is the opinion of this conference, that if the navigation on Patowmack should be carried to about the mouth of Stony river, a communication with the western waters, through a road from thence extended even to the Monongahela, would be preferable in most points of view to that by a road from Fort Cumberland to Turkey-Foot, the only other way practicable, and in any great degree useful. That the communication by a road from Fort Cumberland to the present navigable part of the Youghogany, and thence through that river, though in the opinion of this conference a second object only, would facilitate the intercourse with a very respectable number of western settlers, contribute much to their convenience and accommodation, and that the benefits resulting therefrom to these states would compensate the expence of improving that road.

This conference therefore recommend, that the legislatures of Virginia and Maryland appoint skillful persons to view and accurately examine and survey Patowmack from Fort Cumberland to the mouth of Stony river and the river Cheat, from about the Dunker Bottom to the present navigable part thereof, and if they judge the navigation can be extended to a convenient distance above Fort Cumberland, that they from thence survey, lay off, and mark, a road to the Cheat river, or continue the same to the navigation, as they may think will most effectually establish the communication between the said eastern and western waters; and that the said road be cut and cleared not less than eighty feet, and properly improved and maintained in repair not less than forty nor more than fifty feet wide, at the joint expence of both states; and your conferees beg leave to recommend, that each state appropriate three thousand three hundred and thirty-three and one third dollars for the purpose; and this conference are further of opinion, that the states of Virginia and Maryland request permission of the state of Pennsylvania to lay out and improve a road through such part of that state as may be necessary, in the best and most proper direction, from Fort Cumberland to the navigable part of the Youghogany, and on such permission being obtained, that proper persons be appointed to survey, mark, clear, and improve, such road, at the equal expence of Virginia and Maryland.

Which are submitted to the consideration of the legislatures of Virginia and Maryland.

By order,

R. B. LATIMER, clk.

Which was read the first and second time, concurred with, and leave given to bring in a bill pursuant thereto. ORDERED, That Mr. Cadwalader, Mr. Chase, Mr. De Butts, Mr. Digges, Mr. Key, Mr. G. Scott, and Mr. Joseph Dashiell, be a committee to prepare and bring in the same.

Mr.
