

Mr. Bruce, from the committee, delivers to the speaker the following report :

THE committee appointed to report and bring before the house the most eligible plan or plans for the appropriation of the surplus money coming into the treasury, beg leave to state, that they find in the treasury, together with what may be expected there in the course of a few months, something more than one hundred and fifty thousand dollars; that of this sum twenty-five thousand dollars has been appropriated to the payment of certain certificates and bills of exchange; that a portion of the remainder, or balance, might be vested in stock of the Farmers Bank of Maryland, a part in the Mechanics Bank of Baltimore; a sum might also be given to the penitentiary; twenty or thirty thousand dollars to the use of schools, and there would still be left a balance, a small part, say ten or twelve thousand dollars of which might be laid out in the purchase of stock in the two turnpike roads, now going into operation, and the remainder in the purchase of funded stock of the United States. Your committee are of opinion it would be good policy in the legislature to encourage, by their aid, undertakings of this kind, and it would moreover give a spring and activity to individual exertion that would be highly beneficial; in order to bring these subjects before the house, we lay before you the following resolutions:

RESOLVED, That the treasurer of the western shore be and he is hereby authorised and directed to subscribe, for and on behalf of this state, for four hundred shares in the Baltimore and Frederick-town turnpike road, and for two hundred shares in the Baltimore and Reister's-town turnpike road; that the money for the shares so subscribed be paid out of any unappropriated monies in the treasury, to the president and directors of the respective roads, or their order, when the shares as above directed shall have been subscribed for.

RESOLVED, That the governor and council be and they are hereby authorised and directed, as any money may come into the treasury and be unappropriated, to cause the same, through the agency of some person they may think proper to appoint, to be laid out in the purchase of funded stock of the United States, taking care to keep at all times in the treasury a sum sufficient to meet any probable exigencies or demands that possibly may arise.
