

We hope to dispatch Conway in 8 or 10 days with some woollens, muskets
duck 8' and no 8'

Cent-

(November 2nd 1776

The preceding is a copy of our last letter, to which some ma-
terial changes have taken place.

Inclosed you will be pleased to find an invoice and bill of lading for the goods
we now ship you by the Molly Capt Conway amounting to £ 3944-14-10 this
currency, which you'll please have to ~~credit~~ credit together with the Capt's disburse-
ments being £.

We have but as much salt as found on the Captain's ship it prudent
to take, and all the woollens we were able to procure of any kind. We should
esteem ourselves very happy to supply you with a sufficiency of these
useful articles, but as vessels and sea men are both scarce apprehend we cannot
furnish you with near the quantity required of the first and the latter is really
not to be had at any rate just now, tho' we expect there will be some out soon.

The most convenient way of getting dry goods would be, we think, to give
Capt Conway leave to cruise a week or two to windward of N. Island when
he comes out again. By the time he gets back, if dispatched quickly, there will
be fine pickings among the articles bound here to discharge.

We expect in our next to have your agents sale of Mr. Andry's, Martin's,
Beck's & Conway's cargoes, and are with unborrowed respect

Sirs - Your most Obedt Servt

Wm Blount Harrison.

P.S. We hope to prevail on many private persons to speculate in salt your
way, - tho' the resolve restricting the price of that useful article will be no
advantage to you.

Bact to by October 2nd 1776.

Monthly Gent: Since my being last in your Honors I take this opportunity
that I have been in the greatest expedition in purchasing guns, and have got back
30: as for Blounts have got but few, I have sent my Lieutenant where I informed
you of some to be sold but he has not returned, therefore think it impossible
to equip the Company to march in the limited time & therefore inform
me by express how I shall proceed to enlist as the Chief of my officers and
your officers particular is willing to join drive in war, therefore inform
me what to give and how they shall be clothed & whether to find them
shoes or the Province; how much bounty they shall receive and those who
never yet enlisted, as my company is allowed by several field officers
that have inspected them to surpass almost any in the County I am Gent
To the Honorable

Council of Safety.

We most Obedt Servt

Frederick Deans (Captain)

The 2nd October 1776.

Honble Gentlemen, The Engagement I have entered into with your Honors, I
had gladly expediate as fast as possible, for which purpose I have supplied
myself.
