

N^o 65 To the Committee of Alexandria

Sir A Ship of War (which we take to be the
Liverpool) and two Tenders passed by the City of the
Bay Yesterday Afternoon, and came to Anchor off
the Mouth of Potapscow, whence we conclude they
are destined to Baltimore Town - they took a
New-England Schooner out of Potapscow on Tuesday
as they came up, & two or three other small
Vessels Yesterday - We expect in every Moment
to be informed from Baltimore by Express of
their Movements, which we will communicate
to you, but as probably they are gone there with
a View to take what Vessels they can meet with,
and particularly our Ship Defence if on their
Return may pay you a Visit - We think
proper to apprise you of their Proceedings by
this Opportunity, that you may make the
best Preparation in your Power for their
Reception if they should venture up Potomack.

March 1776
