

with the said Messrs. Willing and Morris given
us, that we may shortly expect the Powder they agreed
to supply us with, these Gentlemen should recollect
that our Money was advanced in Confidence, that
their Contract would long ago have been fully complied
with; we shall be much obliged, if you will let
us know the exact Number of the Chests of Arms,
that were sent us by them. As we are not in
immediate Want, we would not have you borrow the
Ton of Powder you mention, of the Longrofs, but as
we fear we shall be in great Want of Duck, for
our Tents; could the Longrofs spare us any of their
light Skind and fish for making Tents, we would
willingly take it in Exchange for Part of that
belonging to us, which you disposed of to them.
Mr. Duval has appointed Mr. Gerard Hopkins
of Baltimore Town to act, as his Deputy;

who will take Care of whatever is sent to that

(Place)
