

Aug. 11. To Captains Regins & Beale

Sir We received yours of the 29th, and in reply to hear
you are not properly accommodated with houses at Daumpoint,
we expected there were good houses there sufficient; under the
present circumstances we have come to a Resolution, that if
houses cannot be got, Barracks should be erected under the
inspections of the Committee sufficient together with the
houses at the Points, to hold the one half of your
Company, and request you would apply to them for that
purpose. The arms now sent you by Capt. Thomas,
we believe they are not so good, as they ought to be,
especially the locks, we wish we could supply you
with better immediately, but have not any just now, we
expect we shall have enough soon - we have ordered
some guns from John York at George Town, which Charles
Beale, will send you down in a few days - the money
for your subsistence we would have sent, but Mr. Piskamp
never came near us, Lt. Smallwood delivered us your

Letter,
