

Take particular notice of your application for an Armd Boat, and give directions to our armd Vessells as soon as they can be got ready. — The Defense is going down the Bay and will be a good security against Tenders for the present. — perhaps it would be prudent to sell some of your battls, if you want a Market, our Contractor will probably take off some of your superfluous Numbers.

N. 76. To Colonel Richard Barnes —

Sir,

Before your Letter and papers therein inclosed came to hand, we had received a Letter from Major Price, in which Mr. Wolstenholmes affair was mentioned. — The Council of Safety thereupon passed a General order to all the Committees of Observation and Military Commanders, not to suffer any Person whatever to go out of the Province for the present, a copy of this order was inclosed to Major Price and your Committee. — all Intercourse with the Enemy has been hitherto expressly forbid by the Convention, besides times are somewhat altered since Mr. ^{ten} Wolstenholmes passport and the Men of War have so openly Invaied this Province, that we could not discharge our Duty without passing such order, at least we thought so. — Mr. Wolstenholmes case may be attended with particular circumstances, he must however submit to the times. — We hope both General Dent and yourself on reflection will be of opinion that we have done right: — the suffering Gentlemen to go off, on Board the Men of War or Tenders or any other Vessel that may have communication with them is attended with great danger to the Colony. — every means of intelligence must be cut off if possible:
