

N<sup>o</sup>. 158 To Mr. Samuel Dorsey Am Anund County

Sir,

We approve your Patterns for a Tent, but cannot give the price you ask, one of the Baltimore Tent-makers was here and says he will make them with a round seam for two Dollars — if you will make them with such seams on your models we would have you proceed — otherwise be pleased to make some agreeable to the Baltimore pattern at twelve Shillings — if you do not care to make on those terms, send the Lines you have to Baltimore Town to William Johnson who has agreed to make at those prices.

The Tent poles we will pay you for according to the price given at Baltimore, which we cannot now ascertain.

We wish to hear more fully about the Bayonets.

21<sup>st</sup> August 1776.

We are &c.
