

furnishing us with it, — The Gun-factory must stand, as
little Time longer — Mr. Courcy is down on our lists for Pen-
sion, and shall be glad to see him.

Committee of Baltimore County.

No 39

Genl, Capt. Turnish informs us that some preparations have
been made at Whetstone Point for erecting 40 Magazines for
securing Ammunition that may be immediately wanted, in case
of an Attack. — We take it for granted that something of
that sort is necessary, and that the fortification cannot be
considered, as completed without such Magazines. — You will
therefore take care to have it finished, as soon as you conve-
niently can, before the cold weather comes on, to prevent masons
from working.

John Hollingsworth

Sir We request the favor of you to bid for the Prigg, that
was taken by Capt. Cook, and buy her for the State at all events; also
to take care, and purchase the Rum, or any other Part of the Effects,
condemned, that may be useful to the public, and are to be had at
as moderate Prices. — Should you not care to act, be pleased to get
some other Person to bid. — if the Snow Geese, or any other of the vessels
are to be had upon Terms you think reasonable, be so good, as to buy
them for us.
