

the Course of next week, - it would therefore be well for some, who
can do it, to send an agent, or two, which, we apprehend, may be done
with Convenience, and ease, to that Port, and being done as general
to satisfy the present necessary calls of the People.

Mr Barnaby Eichensberger.

Sir
Captam Teams informs us you have a large Quantity of
Coarse Woollens fit for soldiers - if so, and it is not too high priced,
as we have bought such from ten to fifteen, we will take it if you
think the Prices and Quality be as above described, you may let
Captam Teams know enough for his Company, and send us samples for
the rest.

Mr Jesse Hollingsworth.

2088

Sir
Mr Sheward is of Opinion that the Cable made by Messrs
Lay and Bowby for one of our Gallies is much too large for Captain
Hammond's use, and that the Brig's Streamer Cable would suit
the Service better, should this be the case - apply to the
Honourable Board of War, and if it is of the same Opinion,
we shall be obliged by the exchange, as the Gally in Mr
Sheward's Yard is now ready.
