Temperance.-A Temperance meeting was held in the M. E. Church, of this town, on Wednesday evening last, under the management of the Lodge of Good Templars of this town. Rey'ds. A. S. Vaughan and B. F. Price delivered addresses on the occasion. The "pledge" was circulated, and several signers were induced to join the ranks of the "Cold Water Army."

Typographical Errors.-In our report of the proceedings of the County Commissioners last week, two typographical errors occurred, of some importance. In the order for releasing taxes of Sarah Mendenhall on \$2075, the types made the figures read \$20.75. And the account of Mr. Larzalere for excavating was stated to be \$2675, when it should have been \$26.75 .-The errors occurred by the printer in corhave read twenties and rice cersa.

Fire.-The dwelling of Gipson Valentine, (colored) situated at Andora, six miles North of Elkton, took fire on Wednesday last, from a steve-pipe or stove in "summer kitchen," adjoining the Main building .-The house, nearly all the furniture and clothing of the family, and about \$170.00 in money, were destroyed. We learn, about \$70,00 of the money belonged to his brother. There is said to be an insurance on the building of \$600 in the Doe Run Company. The building alone was valued at \$1200 or \$1500.

Agricultural Exhibition.-The first Annual Exhibition of the Oxford Agricultural Society, will be held upon the grounds of the Society, in Oxford, on Wednesday, Thursday and Friday, the 5th, 6th and 7th of October, inst.

A large list of premiums has been prepared by the Society, embracing horses, cattle, sheep, hogs, poultry, farm implements, dairy flatures and every variety of farm product, household and domestic matters. Indeed, the Society seems to have acknowledged woman's right to work, and have made out for her quite a lengthy list of industries, including some eighteen classes, some of them sub-divided under different heads. Whatever the notions of the Society may be about her ability or right to vote, they evidently entertain no doubt of her capacity for useful as well as ornamental work.

The Fair Grounds will be open for the reception of all articles except stock on Wednesday morning, 5th of October.

The little mongoose when bitten by a deadly serpent sorts to a certain plant, eats of it, and escapes the effec of the poison. That is instinct. Human beings on the other hand, must depend on reason and experience in selecting the means of protecting health and life against unwholesome influences. Now, what does reason say on this vital subject? Does it not tell us to invigorate and purify the system is the best way to protect it against the invissible poison which generates disease?

and the inviselible poison which generates disease? Surely it does. The next question is, what guide shall we follow in choosing a medicinal safeguard? Reason replies, let your monitor be experience. Well, the experience of eighteen years comprised in one unbroken recies of satisfactory testimonials assures us that Hostetter Stomach liftlers possess strengthening, regulating and antesptle properties which are not combined in the same happy properties in any other preparation extant. This therefore is the antibote to which reason bide us resort when our health is imperilled either by any other cause, whether inherent and constitutional or connected with our halds, occupations and pursuits. To venom of a noxious reptile is scarcely more subtle and dangerous than that which hasks in foul air and impure water. To escape the fevers, bitions disorders, distuplances of the bowels, and other serious natadies produced by those hashibitions elements, it is absolutely necessary that the stomach and all the secretive organs should be, so to speak, in a robust condition. Then the amount of resistance which the vital system can oppose the health depends, and if it because the order variety and temperature functions of the body, that if can be recommended and guaranteed as an invaluable preventive medicine.
