FOR CONGRESS.

HENRY R. TORBERT,

OF CECIL COUNTY.

personal or despotic Government like that of France under the iron rule of Napoleon. If you cast your ballot on the 8th of November as the ignorant French people did when they voted for Napoleon, without knowing what kind of political principles you are aiding by that vote to establish you may, like the French, be preparing your necks for a yoke as galling as they have bowed under for the last 18 years.

If you vote for the Democratic party, you vote to wipe out the public debt by repudiation, and general prostration, bankruptey, ruin to public credit, and national disgrace. You vote to pay the rebel debt, reward British bondholders of that debt who supplied the funds and arms to carry on the rebellion, which piled up our national debt and made a vacant seat in every home. You vote for pensioning rebel soldiers, and returning the colored man to a state of slavery worse ten times than that from which he has been freed. You vote for the decline of free schools, of American manufactures, and with that decline still lower prices for the farmer's produce. You vote to open our markets for manufactured articles made by the starving laborers in the mills of Europe, and general bankruptey to our manufactering industries. Are you desirous to open this Democratic pandora box? When you voted the Democratic party in power in Maryland, you voted \$4,000,000 of debt upon the State at one session of the Legislature. You voted an army of office-holders on the State to eat up its substance such as never preyed on it before. You voted real estate in Maryland from a brisk market and high prices to nominal values by bringing debt with its accumulated load of taxation upon the property of the State. Do you desire that the Democratic party shall do for the nation what they have done for this State, and more, consume almost as much of the people's money in a single year as the Republican party did in five years?

If you wish to avoid a repetition of these disasters, and commence putting our old State again on the road to prosperity. speak to your neighbor, and point out to Denton, Caroline county, on the 20th inst. him the reckless horde of office-holders and | The meeting was very large, and a stand him the reckless horde of once-honers and hunters which crowd the Democratic ranks; and the waste, robbery and extravagance which have marked every step of that party where it is allowed to assume control. "I have purposely given these details somewhat at length in order that it might clearly appear what ample provisions have been made by law for the protection of all persons who may desire to be registered and to vote in the approaching elections.— In this respect Congress has done its whole duty. I can give you the Last jor or title, I can give you the Most authoritative assurance. All the powers of the United States will new melded to effect a pair election. The humblest citizen will be protected equally with the most influenital. Viologically with the most influenital. Viologically with the most influenital. equally with the most influential. Viowhat is "sauce for the goose should be sauce for the gander," and if this is a precedent, let its operation not be limited to party or sect. To say the least, popular sentiment is against the action of the honorable Board in this matter." lence, threats, intimidations and all the appliances to which desperate men usually resort to defile the ballot-box will not avail. The law is sufficient to meet every case, and there is no reason why a single vote

should be lost. Now what honest man could ask more than that a fair election shall be held, and that every man entitled to vote shall do so? And yet The Democrat gives out the most fearful howls of rage and pain at the very prospect of a fair election. Scenes of violence at the polls and fraud upon the ballot-box by Democratic roughs, have become such a crying evil; together with the universal threat throughout the reconstructed States, and at all places where the Democratic element is largely in the ascendent, that the colored people should not be allowed to vote, that Congress passed a very stringent law at the last session to punish all such offenders. That this law shall be respected at the approachieg election in Maryland, as well as other States, is simply what Mr. Creswell asserted at the Baltimore meeting. That any voter who is entitled to the exercise of the elective franchise will be excluded by the rigid enforcement of this wise and righteous law, TUESDAY NIGHT, Nov. 1st, CHESAis not feared by those who howl like The Democrat, but that the notorious ruffianism of that party will be effectually suppressed, is what causes the distress. Had it not been for the presence of United States marines, in Philadelphia, on the day of election, the strong Democratic wards of that city would have presented scenes of riot and blood shed. As soon as the marines' backs were turned, that element which they kept in check by their presence, broke out, and the door of the Court room was broken in and the return Judges attacked by Democratic roughs, whose purpose was to seize and destroy the ballot-boxes. And in their murderous assault upon the Judges, assisted by the Democratic police, one of the ruflians was shot and killed.

But week before last, an orderly Republican meeting, held at Princess Anne, which had assembled to hear Mr. Torbert and other Republican speakers, was attacked by a Democratic mob, and a serious of the whisky law, when committed, invaria-
