A Gigantic Zoological Garden on Wheels.-We are pleased to chronicle, for unreservedly commend as a proper and pleasant centre and shelter for all classes, creeds, sexes and ages. It will be readily surmised that in uttering this mild jubilation, we refer to a menagerie, as that is the only canvas-shadowed exhibition to which such a compliment can be paid, and of a verity we certainly do, and to the largest, costliest, grandest and most comprehensive that ever rolled roaring into a civilized community, to astonish the old and equally terrify and ectasize those precocious infantile wonders, of which all well conducted families possess one or more, and who have not yet, either metaphorically or practically, seen the elephant, achieved that ever to be remembered epoch in their lives-the first visit to a field show. The one this large and interesting class are about to nake-and we reasonably presume they will all be taken by their indulgent as well curious parents-will be paid to the famous O'Brien Caravan and Menageric, advertised to appear here in long, dazzling and astonishing procession, on Wednesday next, the 9th inst., and to pitch its huge six centre-pole pavillion for a brief day's sojourn. The proprietor is a wise as well as an enterprising gentleman, and advertises liberally as he caters to the public, which supercedes detailed local attention. One huge old animated wonder, however, waddles out of the upper Nile to challenge our respectful admiration, and that is the impenetrably clothed and gigantically strong rhinoceros, before whose terrible horn even the lordly elephant goes down. Another glimpse at the interior marvels of central Africa is furnished in the superbly beautiful and lithesome Eland, while of that class of majestic and thoughtful quadrupeds, who always carry their trunks with them, there is a veritable herd, one member of which is of a peculiarly accom-

doo Houdah. Fire.-On Tuesday last, a fire broke out in the stable of Mr. Cornelius Flinn, situ ate on the East end of Main street, on the bank of the Creek, which totally consumed

for a slight breeze blowing directly from should either be destroyed or disposed of occasion of an alarm of fire, and proves itself, in every instance, utterly useless .-A half dozen "Fire Extinguishers," which would cost but a small sum, and are made tion in case of fire, and the addition of a long ladder and some buckets would make an efficient fire apparatus for the town, and one that would cost little and always be in readiness. Our advice, in the interest of property holders, is to get rid of the suction engine, either by sale or setting it on fire. The brass about it would bring something if sent to a brass foundry. The sioners are justly censurable for not disposing of so useless machine.

## North East Items.

Harcest Home.—They had what was styled a "Harvest Home," at the St Mary's Protestant Episcopal Church, in this place, last week. The building was internally, tastefully and beautifully decorated with fruit, grain and flowers, with appropriate Scriptural texts suspended in different parts of the room. There were also religious services conducted on several successive days by the Pastor.

ous services conducted on several successive days by the Pastor.

Religious.—For several months past, Sabbathday religious services have been held at the residence of Mrs. Bouldin's, on the road from Elkton to Nottingham, about three miles from the former place. They have been conducted by John Gray, Rev. H. G. Simpers, Charles S. Grant and W. W. Kyle, of North East. This is doubtless the pyelous of a religious society in that

The Bridges.—The new iron bridges over North East creek are at last completed. They were built by the "American Iron Bridge Company," of Chester, Pa., through their Agent, L. W. Finley, and are of the Moseley, wrought iron pattern. There are two spans, respectively of sixty-five and seventy feet in length, connected by a causeway of about one hundred feet. We believe this is the best and cheapest bridge that can be constructed. The authorized parties, however, lave made a most awk. parties, however, have made a most awk-ward blunder in planning the site for this needed public convenience, in crossing which there are five inconvenient short angles, where there might have been only two slight ones. The arrangement would have been more sightly and less costly if it had been laid out differently. It is a mat-ter of universal complaint.

county. The Fort Deposit trass band discounted music for the occasion. The meeting adjourned at 12 o'clock with three rousing cheers for our candidate for Congress, who has made such a noble fight in this campaign.

How to save money—Buy your goods, for cash, at the Bee Hive.

Temperance.—A public temperance meeting was held in the M. E. Church on Thursday evening last, under the anapices of the Good Templars. Prof. Vaughan read a poem entitled "The Drunkard's Stry." Rev. Thomas L. Poulson delivered an address, and read "The Vagabond." All personary berely notified not to trespase upon react bon him if followed up.

## SPECIAL NOTICES.

Deafness, Blindness & Catarrh J. ISAACS, M. D., 803 Arch Street, Philadelphis, Oculist and Aurist, Professor in the Medical College of Pennsylvania, of the Eye, E.R.; or CATARRII will be scientifically treated and cured, if curable. He has been permanently located in the city for 8 years, as I makes the alove, specialities in his practice. The Medical faculty is invited, as he has ro secrets in his node of treatment, 93. Artificial eyes inserted without pain. No charges maybe for examination.

to Go to Florida in Winter.

DR. SCHENCE advices Consumptives to Go to Florida in Winter.

Having for the last thirty-five years devoted my whole time and attention to the study of lang diseases and consumption. I feel that I understand folly the course that ought to be promised for the total to devote the cought to be promised for the study of lang diseases and consumption. I feel that I understand folly the course that ought to be promised for the study of lang diseases and policy of the patient to avoid taking cold, and the least of all places on this continent for this purpose in winner for the patient, and not subject to such variations as in more Northern latitudes. Palatka is a point I can make the mend. A good hotel is kept there by Petersona, last winter I have several persons there whose ourse had been body diseased, but who, under the headman had been body diseased, but who, under the headman had been body diseased, but who, under the headman had been been diseased, but who, under the headman had been been diseased, but who, under the headman had been been diseased, but who, under the headman had been been diseased, but who, under the headman had been been diseased, but who, under the headman had been been diseased, but who, under the headman had been been diseased, and the control of the feet of the climate and my medicine, were getting and the sum of the control of the feet of the cold preference to Medionville. It is two miles from river or lack, and it seems almost impossible to take cold there. The tables in Florida might be better, and patients complain at times, but that is a good sign, as it findicate a central of appetite, and when this is the case they generally increase in feel, and then the lungs must heal.

Jacksonville, Hilbernia, Green Core, and many other of the consumptive person expacts in the sum of Florida, can be safely recommended to consumptives, in winter. My reasons for any ungo so are that patients are less liable to take cold there than where there is less even temperature, and it is not necessary to s

quantities of "Schenck's Pulmonic Syrup Seases of front and Mantrake Fills," and yet due if he does not roofd taking cold.

In Florida, nearly everybody is using Schenck's Mantrake Fills, for the climate is more likely to produce billions habits than more northern latitudes. It is a seal stabilished late that natives of Florida rarely disconsumption, especially those of the southern party disconsumption, especially those of the southern party disconsumption, especially those of the southern party disconsumption stabilished late that natives of Florida rarely disconsumption which at least, of the population die of this terrible disease. In this likelis States it does not prevail so largely, still there are many thousands of cases there. What a wart percentage of life would be sare-life from-unpties were assently alarmed in regard to taking fresh cold as they are about scarle fever, and peak they are of the forward of the control of the southern of the southern of the southern of the first pay no attention to it, and hence it lays the foundation for another and another still, until the langs are diseased beyond all hope for cure.

My advice to persons whose lungs are affected even dightly is, to lay in a stock of Schenck's Palmonic Syrup, Schenck's Sawest Tonic and Schenck's Mustiake Fills and go to Florida. I recomment these particular accidences because I am thoroughly acquinited with their action. I know that where they are used in strict conduce with my directions they will do the ward data is required. This accomplished, nature will do the rest. The physician who prescribes for cold, rough or nightoweats, and then advices the patient to walk or ride act every day, will be sure to have a corps on his lands before long.

My plan is to give my three medicines, in accordance modating disposition and will give any and all of the little folks a free ride in the Ilin-

she on the East end of Main street, on the bank of the Creek, which totally consumed the building and a considerable quantity of hay which it contained. It is not known how the fire originated, but occurring about 10 o'clock A.M., it must have been set on fire either through carelessness or design. There was an insurance on the building of \$50 in Cecil Company.

The Fire Department of Elkton had an opportunity of displaying the efficincy of their engine with an abundance of water convenient.

After considerable time spont in preparation, the machine managed to throw a weak stream about ten yards, which resembled a large sprinkling pot, which was directed on the frame work of Hill, Harlan & Co's head gates, that were in danger of taking fire, being within a few yards of the wind drove the flames. Had it not been had a to the building and in the direction then had the wind drove the flames. Had it not been had a large sprinkling and in the direction the burning building and in the direction the burning building and in the direction the had the proper had been rescued from the very jaws of death by their use. If all it not been had a large sprinkling and in the direction the burning building and in the direction the burning buildin

So far as the Mandrake Pills are concerned, everybody should keep a supply of them on hand. They are so

will care you in two hours. If you would obviate the effect of a change of water, or the too free indulgence in fruit, take one of the Mandrakes every night or every other night, and you may then drink water or eat water nuclous, jears, apples, plunes, peakes or corn, without the risk of being made sick by them. They will protect those who live in damp situations against childs and fovers. Try them. They are perfectly harmless. They can do you goesdonly.

I have absorboned my professional visits to Boston and New York, but continue to see patients at my office. No. 15 N. SIATH Street, Philadelphia, every Saturday, from ta. M. to Dr. M. Those who whis a thorough examination with the Respirometer Will be charge! five dollars the case to childron of the imag, and patients can readily learn whether they are carable or not. But I desire it distinctly understood that the value of my medicine depends entirely upon their being taken strictly according to directions.

In conclusion, I will say that when persons take my medicines and their systems are brought into a healthy condition thereby, they are not so liddle to take cold, yet no one with diseased langs can bear a sudden change of atmosphere without the liability of greater or less irritation of the brought and clear that any one can use them without consulting me, and can be lought from any druggist.
