The old institution of slavery, fostered a spirit of barbarism and blood thirst, which has been let loose upon the whole community by the rebellion giving a death blow to its parent. And what formerly found an outlet for its vindictive propensity on the plantation, where crime was generally covered up from the public view, now is brought to light by increased facilities for gaining intelligence from all parts of the country. covered them with distrust and disaster .-EVERY SATURDAY .- The current number of Ecery Saturday contains the opening chapters of Charles Reade's long-expected novel, A Terrible Temptation. No living English novelist reaches so large a circle of readers, or creates so profound sensation by a new work, as Charles Reade. Aside from their striking literary merits, most of his novels have provoked discussion by the uncompromising manner in which they have handled some topic of vital social interest. The reader will remember the violent newspaper controversy that followed the author's expose of the English prison system, in "Never Too Late to Mend," and, later, the excitement caused by his unvailing in "Hard Cash," certain monstrous abuses connected with the management of private lunatic asylums in England. His brave onslaught on the terrorism and folly of which Trade Unions are guilty, is fresh in the minds of all. In each of his fictions Charles Reade has a purpose-and always an ennobling purpose—in view. "A Terrible Temptation" Mr. Reade, boldly grapples with one of the most delicate and perplexing questions at present agitating society. The fallen woman is unhappily not new to literature; but she is new in the unalluring, realistic shape in which Charles Reade presents her in the preliminary chapters of his novel.
