The Thugs of India were a secret organization, sworn to rob and plunder, but they did not conceal themselves. These men committed their crimes at night, and carried terror whereever they went. Every member of the Senate would admit that an organization so revolting to humanity should be put down. Their number in North Carolina had been stated at forty thousand, but was certainly ten thousand. Any reader of the testimony would suppose it much larger.—In Rockingham county, in that State, sixty two of these outrages had been committed. In one case a majistrate of a town in that county had testified to the hanging of a colored preacher at a late hour of the night by seventy-five armed and disguised men on horseback. The dangling body of the victim was found suspended from a tree in front of the court-house with a paper pinned upon it on which were the words:

"Beware, ye guilty, both black and white. K. K. K." A poor half idiot negro, who lad seen some of these omen, was drowned several days afterwards to prevent their detection by him. In other instances, as shown by first estimony, a band of disguised men in Alamanco county had taken a colored man from his house, whipped and shot him, and then compelled all the negroes in the neighborhood to swear that they would never vote the Hadical ticket. The killing of a back to be the house heavy heav sheriff had been shown to have been pre-viously determined upon in secret. He desired his Democratic friends to be condesired his Democratic Friends to be con-verted to the belief entertained on the Republican side, that these outrages should be stopped, and with that view he submit-ted and had read various extracts from Democratic newspapers of the South, denouncing the outrages as impolitic and beinous, and calling for severe measures of

olina we became acquainted either personally or by reputation with the majority of these men.

Why, then, are they forced to the dread choice of deposition, exile, or death?—Because they are Republicans. Because it has been definitely decreed that in the county of Union no Republican shall be permitted to hold any office whatever, and this whether appointed by the Governor or elected by the votes of the people.

Nor is this all. When these officers are replaced by Democrats, then the voice of the seourged and the dying can be stilled and there will be apparent peace in the deserted home or above the grave of every leading Republican in the county. Exile or assassination is to be their portion. If the experiment succeeds in that county it will be tried in nearly every county in the Sante. It is the political plan of the Democratic party of that State, deliberately adopted and resolutely entered on. If it proves a success, as it bids fair to be, it will be in the next election, by bloody violence, precisely the same Democratic understood plan of the Democratic party of the South was coerced into secession. This is the specific and well understood plan of the Democracy of North Carolina, South Carolina, and Georgia at least, and to the same to a less degree, in all the Gulf States. This is the specific and well understood plan of the Democracy of North Carolina, and Georgia at least, and to the same to a less degree, in all the Gulf States. Whatever we do with the facts, we must face them. These are the facts.

What can these men answer in justification of their course, who, having entered the Union Armies to put down the first rebellion of those men (now banded as Kukux klans) against government and against law, have encourreed this threatened insurrection, by aiding the Democratic party with their votes to bring the nation to the verge of a second,—as that party fomented and inaugurated the first rebellion? Do you want to take your place again in an army of five hundred thousand men, to restore order and assort the authority of the Government, and then help to introduce the control of the contr men, to restore order and assert the authority of the Government, and then help to foot the increased war-debt? If you all the week, get your washing nicely done encourage the Democratic party these things are before you as sure as the sun will rise to-morrow. Mr. Sherman's speech in the Senate on Saturday last, astonished his coleagues, because he has heretofore been regarded as rather conservative on the subject of the South. He characterized the outrages committed there upon unoffending Union men as exceeding anything that he had heard of in ancient or modern history.—Coming from a man so uniformly moderate and careful in his expression, this language is regarded as somewhat remarkable. It appears that he has been searching the records for the crimes committed by the Ku klux, and he presented such an array as to horrify those who heard him.

Crumbs Suept Up is the suggestive and somewhat peculiar title of a very interesting and readable book, written by the Rev. T. De Witt Talmage, of Brooklyn, New York, and published by Evans, Stoddart & Co., 740 Sansom Street, Philadelphia. The author is well known by the public generally as a popular lecturer and preacher. Being a man of the times, his sympathies are altogether with the present, and his views herein expressed show the fearless disregard member of the Ku klux in reply to an article in an Alabama paper, the point of which was that the writer did not think it an offence to kill a negro.

The nurder of Col. Crane, of Jackson, Miss., an ex-federal officer, by Yerger, and similar instances, were referred to as showing that every victim of such outrages was a Republican and every porperator a Democrat, and that no man throughout the whole South had yet been convicted for any such offence.

The following statements of facts by the editor of the Washington Chronick, are published in a late number of that paper:

In Union county of South Carolina interest in the country officer in could blood since the election last autumn—every one a prominent Republicans, have been murdered in cold blood since the election last autumn—every one a prominent Republicans, there were killed on the day after the election, and numbers since, while mutilations, build two unds and terible whilppings are uncounted.

One of the Roman Catholic Churches, not yet finished, which I learn is being built solely by the servant girls, is a magnificent structure, one window, alone, costing \$5,000. Very good kind of servant girls to have in a community. Some of the Methodist and Presbyterian congregations have handsome houses of worship, being built in modern style, denouncing the outrages as impolitic and heinous, and calling for severe measures of punishment for their repression. As showing the morale prevailing among the Ku klux themselves, he read a card from a member of the Ku klux in reply to an article in an Alabama paper, the point of which was that the writer did not think it an offence to kill a negro.
