

Mr. John C. Hindman is our regular authorized Agent and Collector to procure subscriptions and advertising for The Whig.

LOCAL AFFAIRS.

Local Miscellany.—Dull business. The P. & B. Railroad car, last year, 600,000 passengers.

Prevailing.—The (whoop mania among the boys.

There is talk of starting a match factory here. Match-making has existed among a portion of our citizens for years.

Mr. J. McCullough, Trustee, sold the McCrea property, on High street, consisting of a house and lot, on Tuesday last, to Mr. T. C. Crouch, for \$725.

Miss Bertha Thorpe has been appointed Principal of the Elkton Public School.

Mr. Johnson Benjamin has been appointed teacher of the Westmoreland, and Miss Emma V. Layman, of the Holt School.

The hoop season is now at its height, not crinoline, but the veritable hoop and "beater," with a small boy supplying the motive power.

The rattle of the iron on our streets may be heard far in the night, as some enthusiastic "Young America" propels and guides, with commendable skill, his annular toy over the pavement.

We desire to call special attention to the advertisement of Mr. S. S. Rambo, which we publish to-day.

Mr. S. S. Rambo, who has recently bought out the extensive hardware store of Messrs. Noland & Co., at Port Deposit, where he has established himself in that business.

Pennington Bros., of the Middletown Peninsular Machine Works, call the attention of farmers to an important fact, that they have the exclusive right, for this and other counties, to attach the drop to old reapers.

Our old friend, Miss Lizzie M. D. Earles, makes her bow again to the ladies of Port Deposit and vicinity, through our columns to-day.

The store house occupied by Mr. W. C. Rumblo, on Main street, has been considerably enlarged by the tearing away of the partitions and converting that portion of the building recently occupied by Mrs. Rhoads, as a millinery store, into a sales-room.

Sub-Committee.—The Sub-Committee on the part of a Committee appointed by the Methodist Episcopal Conference to select a site for a Peninsular Academy, made a careful examination of Elkton and its environs on Wednesday last.

This we believe finished the examination of the numerous localities indicated for the proposed seat of the academy.

On the second Monday in Wilmington, when the report of the Sub-Committee will be examined and a site selected.

The Town Election.—This important election will take place the first Monday in May. We have tried electing our wisest men to that office, but always with the same results.

They assess taxes, with the extent of the law, and give some individual whom they dignify by the title of Bailiff, a carte blanche to do what he pleases with the funds.

As there is nothing to be seen for the money spent, and no statement of the finances are made public, the people are in the dark as to where the money goes.

From motives of pure economy, doubtless, no statement is published; but inasmuch as the property-holders should know where the heavy taxes have gone to, we suggest that the Commissioners negotiate with the king bee of the Hive to make four copies of the report—be an excellent plan—and have one stuck in the Court House, another on the Court House door, one on the Court House yard pump, and the other on the old Engine House.

Dick will doubtless do this little turn for nothing, so that the economical Board will not have to spend any of the Bailiff's perquisites in publishing their report.

The office of Town Commissioner has so remarkable and contrary effect upon men, that we would suggest a Board of fools for the next. The thing seems to work by contraries, like Rory O'Moore's love-making.

Death of Samuel Magraw, Esq.—The Bel Air Epitaph records the death of the above named gentleman, which occurred at his residence, in Harford county, on Monday, the 10th inst., in the following manner:

"This gentleman died at his residence, 'Henrico,' near Thomas' Hill, in this county, on Monday morning, in the 65th year of his age. He had been stricken with paralysis about two years ago, but although an invalid since that time, was ordinarily cheerful until his death, which occurred suddenly. Mr. Magraw was a gentleman of superior education and high attainments, and was at one time principal of the Bel Air Academy, and for many years one of the judges of the Orphans' Court for Harford county. He was a member of the Constitutional Convention of 1850, and took a prominent part in the deliberations of that body. His remains were interred on Wednesday at West Nottingham, Cecil county, where they were attended by a large number of his friends."

The deceased was a son of Rev. James Magraw, D. D., who established West Nottingham Academy, in this county, and who was a man of considerable ability and note in his day. The deceased was principal of the West Nottingham Academy for several years before removing to Harford county, and had the reputation of being one of the best teachers the Academy ever had. He was an elder brother of the late Henry S. Magraw, who died at the old Magraw home place in 1867, lamented by all who knew him.

Assault, with Intent to Kill.—On Wednesday last Robert Montgomery beat an old man named James McFadden so badly that fears are entertained that he will not recover. Montgomery lives in the Fourth District near Mr. James McKane's.

It would seem that the assault was unprovoked. Mr. McFadden resides in Philadelphia, but was in the neighborhood on a visit. Montgomery's father died a short time ago, and by his death a considerable sum of money fell into his son's hands, who has been spending his inheritance in hard drinking, and it would appear by the evidence that he is little better than a dangerous maniac. He beat his wife a few days since in a brutal manner.

The beaten man was taken to Mr. John Feeley's house near where the assault occurred, and was followed by Montgomery, who swore he would finish his brutal assault by killing him outright. Mr. Feeley, however, diverted him from this charitable purpose by using a club on him, when he went for a gun, and vowed vengeance upon his unoffensive victim, being doubtless in the language of the law, reduced by the instigation of the devil. The neighbors interfering prevented further outrage by the maniac of ruin, till Thursday, when complaint was made before Justice Johnson, who issued a warrant for his arrest. Constable Grant went in pursuit of the offender, but he has thus far eluded capture.

Spring goods?—If it wants no time by looking around at all the head-quarters at once, and you will be tempted to quote a couplet from one of Tom Moore's Love Songs:

"Every humber altar passed, I now have reached the shrine at last."

ROWLANDSVILLE ITEMS.

Improvements.—The McCullough Iron Company are erecting an engine house to one end of their Rolling Mill, for the purpose of placing therein an engine to run the washing machines used for washing the iron. Mrs. Margaret Barratt is enlarging her store-room, at this place, preparatory to the spring trade.

Funerals.—Samuel Magraw was interred at Nottingham, on day last week. He was the last of the sons of Rev. James Magraw, D. D. Granville England, who worked in the Rolling Mill here, and who was universally respected and esteemed by his fellow-workmen, died very suddenly, in Wilmington, about a week ago. He had gone to that city on a visit, apparently in good health, where he died after an hour's sickness.

Public School.—Our public school is in a flourishing condition, under the able management of Prof. Watts and his accomplished assistant.

Crops.—Wheat is looking finely hereabouts. Oats are up and our farmer boys are busy planting their corn. The many scenes in which they mingled the past winter, which has been one of unusual gaiety.

Weather.—The hail storm immediately north of us, last week, produced a change of temperature sufficient to give us frost, on Thursday and Saturday mornings, and on Tuesday of this week. The dryness of atmosphere may save the peaches and other fruit from injury.

Injured.—Levi Burgess had his right foot badly burned, a few days since, at the Rolling Mill, by some hot chimneys being driven against it from one of the furnaces.

Public School.—The Spring term of Public School closed on Friday; and the Summer term opened on Monday, 17th inst.

Fisheries.—A large number of wagons have passed down this week, for herring and shad, the catch of which has been rather moderate.

Dangerous.—Very narrow escapes from damage to life or limb sometimes occur from fast driving at the narrow bridges in the center of our town. Children are especially in danger. Our City Fathers will please either the bridge or slacken the speed.

Acorns Borealis.—Of that wonderful phenomenon, known as Acorns Borealis, there was a display, extending from northern horizon to zenith, on Sunday and Monday nights last.

Improvements.—Mr. George McCullough is having a very neat palling placed at the south side and in front of his new mansion. Mr. McDaniel is having additional improvements to the building on his farm.

Temperance.—A petition, signed by one hundred and fifty-one citizens of North East and vicinity, against the issuing or granting of licenses for the sale of intoxicating liquors in our community, has been presented to the Honorable Judge of the Circuit Court for Cecil county. Nineteen persons refused to sign said petition.

Drought.—William Scotten and J. J. McCullough having recently set out ten thousand Oage thorns, for hedge, and think of watering the plants to protect them from injury by the prevailing dry weather. The wheat is beginning to suffer from the same cause.

Accidents.—On Wednesday, while two men were wrestling, at Mr. Collins' fishery, one of the parties was broken. Drs. Worsell and Housekeeper were called to attend the case.

PORT DEPOSIT ITEMS.

The gentlemen of our town, wise in the law, are discussing the question, "Have we a Board of Town Commissioners?"

The election was held on the last Monday in February, shortly after which the elect met and chose J. Tom, President, who qualified before David Scott, Clerk of the Circuit Court. The other four did not qualify until last Monday night. The Commissioners claim that Mr. Tom, having been sworn in before the expiration of thirty days from the election, the whole Board were sworn in in his person. Others think, (although agreed upon) Mr. Tom could not be President until he had colleagues qualified to elect him, and they could not do so until after the expiration of thirty days from the election.

Again the stone men are working at Mr. Tom's portico. This gentleman has removed the two-story dwelling from the lower part of his property and sold it to Wm. Oliver, who will have it re-erected in the Still House Hollow. He has kept a few men employed nearly all winter, quarrying, removing buildings, filling wharves, and making many ornamental and some necessary improvements; the latter of which are now particularly appreciated by Broad, R. & Co.

The last term of the school year commenced last Monday very favorably.

James N. McCullough has been elected Town Bailiff.

Farmers and gardeners are hoping for a speedy mass meeting of the Temperance folks, as that is said always to bring rain.

Mr. J. C. B. Gilmore, for long time a clerk here, is now a knight of the yard stick, and has pitched his tent at Porter's Bridge.

CHESEAPEAKE CITY ITEMS.

Religious.—Quarterly Meeting will be held in the M. E. Church, on Sabbath, 23d. Rev. J. H. Quigg, P. E., will preach at night, and administer the Sacrament.

Personal.—Rev. Mr. Mallory left here on Tuesday last, for Princes Anne, to attend the Presbytery at that place. Rev. Mr. Vaughan, of Elkton, is expected to fill Rev. Mallory's pulpit, on Sabbath morning and evening.

Temperance.—Rev. Mr. Bonwell will preach a Temperance sermon, in the M. E. Church, in this town, on Friday evening, April 25th.

Improvement.—The Presbyterians intend building an addition to their church, to be used for lecture room and Sabbath-school purposes.

Miscellaneous.—Rev. Mr. Bonwell preached in the Presbyterian Church last Sabbath morning. . . . Town lots are selling very fast. . . . The Good Templars are working. . . . Chesapeake City has eleven hundred inhabitants. . . . The lumber merchants are busy. . . . Quite a number of barges pass through the canal daily. . . . The steam pump in this town, which feeds the canal, is a curiosity to some people. . . . The town election takes place on May 1st. . . . The farmers are wishing for rain. . . . Some people fear the late frosts have injured the peaches. . . . Butter is plenty, at 31 cents per lb.; eggs, 20 cents per doz.; potatoes, \$1.60 per bushel, and scarce. . . . Mr. Reed has laid in a new and beautiful stock of goods this week.

It would be well to call the public attention to the justly celebrated "Wilmington City Soap," manufactured by Moore & Bro. It works like magic and no good household-keeper who has once used it, will be without it.

CECILTON ITEMS.

Mr. Benjamin Benson, residing in Pond's Neck, who had been ailing for some time, died suddenly, on Thursday morning, 13th inst. Some cases of serious sickness are reported in the neighborhood.

The farmers' hearts were gladdened, on Thursday morning, by a copious shower of rain. Plowing had stopped on account of the dry weather.

The prospects for fruit are encouraging to the peach growers. . . . Our fishermen are doing remarkably well, this week. . . . Huckstering must be a very profitable or easy kind of business, judging from the numbers engaged in it, this spring. . . . The recent frosts did no damage to the fruit, it is believed.

Congress adjourned at 2 o'clock P. M. on Thursday, and the President issued a proclamation calling the Senate together on the 10th of May, on important business.

Dr. V. S. Caleb, at the old stand, on North Street, is supplying his customers with superior beef, juicy and tender—He keeps also a first quality of Spring vegetables, flour, meal and feed. Mr. Caleb is a new man in the provision business, and commends himself to the patronage of the public by the superior quality of his goods.

Shoes for men, women and children, of quality and low prices, for cash, at the Bee Hive in the Hollow.

It has been the custom of all people, in all ages of the world, to consult their interests, and this is the reason, in the present age, why the people rally to HULLER'S, at Brick Meeting House, Maryland.

New Goods received weekly at Wilson's. Ground Almond and Turk's Island salt at the Bee Hive.

Burton has received spring goods, and for the cash you can buy good goods at low prices.

Maurus hargraves, maxims hargraves, in all the goods, at HULLER'S, Brick Meeting House, Maryland.

Buy your goods for cash; you will save money by doing it. Wilson's.

Burton sells white sugar at 12 cents; and best Porto Rico brown at 11 cents;—that is for cash.

Prof. Reardon has received an invoice of his new Patent Pills, which can be had by application to him at his Bazaar at the Exchange Hotel.

This is a true saying, where goods are sold cheap, there the purchases will be found. This has been proven at Wilson's.

Horns goods, melior goods, optimum goods, at HULLER'S, cheap, at HULLER'S, Brick Meeting House.

Keep out of debt. Pay as you go, and go to the Bee Hive.

The North East Classical Seminary will be opened Wednesday, 20th inst., under the Principality of Prof. Geo. E. Jones, of Princeton, N. J.

If you want a Spring suit, go to JANNEY'S, in the Hall, and buy it at city prices.

RIISING SUN ITEMS.

Improvements.—Our citizens and the residents of this vicinity, are putting out shade and fruit trees, and otherwise improving and adorning their properties.

Circus Wagons.—A few days ago a number of Foreigning's Circus and Menagerie wagons stopped to water at our hotels, causing quite an excitement among the boys and girls.

Dry Weather.—Dry weather and cold winds have almost put a stop to gardening and planting, though some go on because they have got started.

Croquet.—This exciting game is beginning to again claim attention, but the weather is too cold for getting excited, and what is croquet without excitement and pretty girls?

Arounds.—The lightning rod man is around. . . . The weight and measure man is around, after long and short measures. . . . The life insurance man is around; they are. . . . The patent bee hive man is around, with a trap to catch him.

Fish.—The horn still sounds for fresh shad and herring.

PILOT TOWN ITEMS.

Accident.—Edward Lloyd, David Williams and John O'Griffith, quarrymen in McSparran's State Quarries, at Peach Bottom, Lancaster county, Pa., (Evedly Lloyd lessee of the quarry) were severely injured by the explosion of a part of a keg of powder. Mr. Lloyd had been to the powder house for powder, and stopped at the mill shop for a drill, and set the keg down in the shop, and moved the water keg, used for tempering. Mr. Williams, the smith, mistook the powder keg for the water keg, and put the drill with a tempering heat on it, into the powder, when an explosion followed, blowing the side out of the shop, and Mr. Lloyd under the bellows, burning him in a horrible manner.

River.—The river is still low, and the prospect for a rise poor. There is about 500 rafts ready and waiting for a flood.

Railroad.—The sections of Malone and McKean, Shovars & Co., are still at a standstill. The sections are about three-fourths finished.

Fish.—The fishermen at Peach Bottom (Caldwell's Island) have caught large numbers of shad this Spring, the finest I ever saw.

LETTER FROM NORTH EAST.

North East, April 17th, 1874. Mr. Editor:—The question is frequently asked, "What has become of 'North End,'" as he appears to be lost or asleep, or on adventure he is on a Journey, as was Alad's goal.

Not long since we passed by the station where he puts up, and was insulted on the street by one of the victims at the station. We passed on, however, in silent contempt. We are creditably informed that immediately after we were out of hearing, the agent ordered his victim in the house and to bed, and not to show himself in the street again, evidently ashamed of the exhibition.

We would advise "North End," as he is a young man and trying to gain notoriety in our community, not to travel any further on that line than Temperance, and then get off, though he forfeit the whole fare to Southwold, and sign the first petition he sees for the prohibition of license for the sale of rum in our midst; and his reputation will reach a higher point in the scale of humanity than he can ever hope to attain by defending the rum trade.

We predict the day is not far distant when it will be rum and anti-rum; and the anti-rum has a large majority, if the Legislature will only give us our rights at the ballot-box. The prohibition of the sale of liquor in our community might save both citizens and visitors from disagreeable contact with those whose common sense and propriety are destroyed by the monster.

The Members of Union Lodge, No. 48, Ancient, Free and Accepted Masons, are hereby notified that a Special Communication of said Lodge will be held on Monday evening next, at 7 o'clock: A full attendance is desired.

By order of the Worshipful Master. J. H. CALDWELL, Secretary.

SPECIAL NOTICES.

MYSTIC WATER FROM DAVID'S WELLS. The great BURETIC TONIC and ALTERNATIVE remedy of the world, for all the diseases of the blood and other valuable cures, and being proved by the unerring test of repeated trials, as one of the best known remedies for Rheumatism, Dropsy, Nephritis, Liver Complaints, Catarrhs of the Prostate, Gonorrhoea, Stricture, Gravel, Hemorrhoids, Constipation, and General Debility. It purifies and cleanses the blood, increases the appetite, digests the food, stimulates the secretions and restores the system. It is mostly recommended by Physicians, and the testimonials of all kinds are abundant. It is sold at the low price of \$2.00 per bottle of one dozen quart bottles, delivered at Station, Pa., to be expressed to any point.

Dr. S. CALDWELL, 106 1/2 St. Philadelphia, Pa. The HOLLING INSTITUTE, under the patronage of the Board of Health, has prepared a new and improved formula for the cure of all the diseases of the year, who prefer drinking the MYSTIC WATER from the WELLS.

1840 1870

The "PAIN KILLER" may justly be styled the great medicine of the world for the relief of the pain which it has not only cured, but it has been largely used and highly prized. Moreover, there is no cure to which it is not well adapted, for the relief of a considerable variety of diseases; it is a speedy and powerful remedy for all the diseases of the head, neck, chest, and lungs, as well as for the various other injuries, as well as for the various diseases of the blood, and for the various diseases of the system. It is a very significant fact, that notwithstanding the fact that it has never lost one of its popularity, but, on the contrary, the call for it has steadily increased from its first discovery, and at no previous time has the demand for it been so great, or the quantity made so large, as it is to-day.

Another significant fact, that nowhere has the Pain Killer been so highly prized, as in our country, where it is used by millions of our people, and is so generally used, that it is a well known fact, that it is a cure for a considerable variety of diseases; it is a speedy and powerful remedy for all the diseases of the head, neck, chest, and lungs, as well as for the various other injuries, as well as for the various diseases of the blood, and for the various diseases of the system. It is a very significant fact, that notwithstanding the fact that it has never lost one of its popularity, but, on the contrary, the call for it has steadily increased from its first discovery, and at no previous time has the demand for it been so great, or the quantity made so large, as it is to-day.

When disease has undermined the health, and the physical system has become prostrated, a stimulant that will not only strengthen, but remove the cause, should be immediately resorted to. Mental distress is also a fruitful source of the breaking down of the constitution, and the ravages of this enemy to health are truly alarming. For all such maladies HOLLING'S Bitters have been found to be a most valuable remedy. By acting directly upon the bowels, they remove the cause of the distress, and by feeding the system, so often complained of by persons of a delicate temperament. As soon as digestion is restored, the patient finds his strength increasing, and his general health improved.

Thousands of persons testify that it may be relied on in all cases of weakness or nervous debility attendant upon ordinary habits. The general debility attendant upon indigestion, and the fact that they are objectionable to the stomach, which will be found mild and extremely palatable. Balsamic plants, bark and roots contribute their restorative juices to render this medicine a most valuable remedy for the various diseases of the blood, and for the various diseases of the system. It is a very significant fact, that notwithstanding the fact that it has never lost one of its popularity, but, on the contrary, the call for it has steadily increased from its first discovery, and at no previous time has the demand for it been so great, or the quantity made so large, as it is to-day.

Thousands of persons testify that it may be relied on in all cases of weakness or nervous debility attendant upon ordinary habits. The general debility attendant upon indigestion, and the fact that they are objectionable to the stomach, which will be found mild and extremely palatable. Balsamic plants, bark and roots contribute their restorative juices to render this medicine a most valuable remedy for the various diseases of the blood, and for the various diseases of the system. It is a very significant fact, that notwithstanding the fact that it has never lost one of its popularity, but, on the contrary, the call for it has steadily increased from its first discovery, and at no previous time has the demand for it been so great, or the quantity made so large, as it is to-day.

When disease has undermined the health, and the physical system has become prostrated, a stimulant that will not only strengthen, but remove the cause, should be immediately resorted to. Mental distress is also a fruitful source of the breaking down of the constitution, and the ravages of this enemy to health are truly alarming. For all such maladies HOLLING'S Bitters have been found to be a most valuable remedy. By acting directly upon the bowels, they remove the cause of the distress, and by feeding the system, so often complained of by persons of a delicate temperament.
