extravagance in public expenditures .-These charges, it will be remerizored, were made with great vehemence and confidence, but nothing like proof was ever produced by the speakers and newspapers that made them. Political excitement, as far as our State is concerned, having become, to use a mercantile phrase, flat, we propose to introduce a few figures, from time to time, in order to show which party is justly chargeable with this propensity for scattering the public revenues and taxing the

We will first take up the Civil List, and cite some of the leading disbursements,

when they assumed control of the State, made an onslaught upon the system of free schools, which had been established by the Republican party, and which was pronounced one of the best in the country, by those most conversant with the free school systems of the States. In that battle against public education, the office of Superintendent of Education, was abolished, but the salary of that officer, \$2,500, was not saved to the State. Another office was created by the same legislature, termed Superintendent of Labor and Agriculture, with a salary of \$2,500, and which, by the officer's own showing, in his Report to the Governor and Legislature, at its last session, was about as useful to the State, as that famous fifth wheel to a coach.

The Immigration Fund was a creation of 1869, the object of which was to supply foreign farm labor and exclude the colored laborers, because they were disposed to vote contrary to the wishes of their former masters. This little experiment, which the Agent pronounced a complete failure, received an appropriation of \$5,000 by the

ceived an appropriation of \$5,000 by the last Legislature.

The Confederate Memorial Association at Frederick, has an additional appropriation of \$1500; the former Legislature, which created these associations, appropriated \$5,000 for the Frederick and \$3,000 for the Point Lookeut Cemetery. This proper was expended in fitting up and money was expended in fitting up and "decorating" cemeteries, into which the bones of the Rebel dead were gathered from the battle-fields of Antietam, South Mountain and other adjacent places, and Rebel prisoners who died at Point Lookout. As soon as the Rebel party of Maryland got into power in the State, they commenced

using the public money to fit up and decorate cemeteries and remove the bones of those from graves where they fell, in their effort to break up the Government. These silent figures point like the finger of fate to the party guilty of squandering

the public money, and heaping mountains the State; which condition of affairs to-day is repelling capital and labor from our painful wound. This is the second attempt borders, and placing half the real estate in the hands of sheriffs and trustees for public sale, as the teeming columns of the country papers of the State, week after week, abundantly testify.

- Some time ago Mrs. Pomeroy, wife of crops of tomatoes this season, believing that they will prove more remunerate than the somewhat notorious "Brick" Pomegrain crops.

There are now 22 prisoners in the Easton jail. roy, engaged the services of General Butler as counsel for the purpose of procuring a divorce from her husband. As soon as "Brick" heard that his wife had engaged Gen. Butler, he instructed his lawyer to endeavor to make a compromise. Pomerov's lawyer wrote to Butler to ascertain whether a compromise could be effected.—
After consulting his client, Butler replied that it could, provided Pomeroy would pay his wife twenty thousand dollars, with alimony. Pomeroy at once accepted the terms, and the case is settled, Mrs. Pomeroy reauming her maiden name.

The number of exercises in Congress Wilmington.

The number of exercises in Congress Wilmington. whether a compromise could be effected .-

-The number of ex-rebels in Congress far exceeds the number of "carpet-bag representatives of the South." Of the twentytwo Southern Senators, only nine are of
Northern birth, and one of these is a Democrat. Of the fifty-nine Southern Representatives, forty-one are natives of that
section, and only nine Northerners; and of
this number of Southern Representatives
twenty-eight are ex-officials of the Confederacy. This statement effectually explodes the cry of "carpet-baggers," and
shows that the South has more natives in
Congress in proportion than many of the
Western States.

—On Monday went into effect the act of
Congress repealing all special taxes, liconsos,
etc., except on distilled spirits, malt liquors
and tobacco. The reduction of the receipts
of internal revenue by these changes will
amount to between thirty and forty millions of dollars. And thus the Republican

Notice to Creditors.

This is to give notice, that the subscribers, of Cecil county, heave obtained from the Orphana Court of said county, letters of Administration on the personal estate of AZARIAH RITTENIOUSE,
late of said county, decased. All persons having claims against the said decased are hereby warned to exhibit the same, with the rouchers thereby warned to exhibit the same, with the rouchers thereby duly authenticated, Ou or before the 17th day of April, 1872: they may, otherwise, by law, be acclusied from all benefit of said estate. All persons indebted to said estate are reputed to make immediate payment to the subscribers. Given under our hands, this 6th day of May, 1871.

MAKY JANE RITTENHOUSE,
THOS. W. RITTENHOUSE,
Executors of Azariah Rittenhouse, dec'd.
Tat.—REURN D. JAMER, Register. It is our constant practice to make chemical analysis of the Phosphate manufactured by Mesers. Wattaon & Clark, of this city. We analyse the materials in the course of manufacture, and the finished product ly for commerce. We know from our analysis that it is the constant endeavor of W. z.C. to throw into the market a uniform and reliable fertilizer, which shall not be inferior to the best, but rather surpass them. The average analysis of the past year's work shows the con-Soluble Phosphate Acid about 7 per cent. equivalent

to Soluble Bone Phosphate 18 per cent.
Total Phosphoric Acid about 15 per cent, equivalent to total Bone Phosphate 32% per cent.
Ammonia about 1 per cent, equivalent to Sulphate of In the matter of the sale of the Real Estate of John T. Ammonia about 1 per cent., equivalent to Sulphate of Ammonia 4 per cent. The Suluble Phospheric Acid finctuates from 63/431/4 per cent, the total from 14 to 16 per cent, and the Ammonia from 16 to 120 per cent.

As we have made numerous analysis of similar fertilizers, made by other firms, we can assert that the article made by W. z. C. is not surpassed by any others on sale that we have examined, but that it is decidedly superior to the greater part of them, and is, moreover, very uniform in composition. Respectfully yours, leaves, why said sale should not be form in composition. Respectfully yours, leaves, why said sale should not be form in composition. Respectfully yours, leaves, why said sale should not be fifted and confirmed.

For over Thirty Years PERRY DAVIS' VEGURARIE PAIN
KILLER has been tested in every variety of clime, and by
almost every nation known to Americans.

It is almost the constant companion and estimable
friend of the missionary and the traveler, onsea and lard,
and no one should travel on our lakes or rivers without it.

It has been before the public for over thirty years, and
probably has a wider and better reputation than any
other proprietary medicine of the present day. At this
period there are but few unacquainted with the medits
of the Pain Killer: but white some extol it as a limimout,
they know but little of its power in easing pain when
taken internally, while others use it internally with
great ancess, but are equally ignorant of its leading
sirtues when applied externally. We therefore wish to
say to all that it is equally successful whether used
internally or externally, and it stands to-lay unrivalled
by all the great catalogues of family medicines. It is
sufficient evidence of its virtues as a standard medicine,
to know that it is now used in all parts of the world,
and that it sales is constantly increasing. No curative
agent has had such which spread sales or given such universal satisfaction. It is a purely vegetable compound,
and perfectly safe in unskilful hands. [may 6—1m or the high of the 24th the, sector prisoners attempted to break jail, in Chestertown, by picking through the wall. CONSUMPTION. ITS CURE AND ITS PREVENTIVE.

BY J. H. SCHENCK, M. D. Many a human being has passed away, for whose leath there was no other reason than the neglect of known and heli-patably proven means of cure. Those near and dear to family and flends are sleeping the leranless lumber into which, had they calmly adopted DR. JOSEPH H. SCHENCR'S SIMPLE

TREATMENT and availed themselves of his wonderfully efficacious medicines they would not have fallen.

Dr. Schenck has in his own case proved that wherever sufficient vitality remains, that vitality, by his medicines and his directions for their use, is quickened into health-ful vicer.

and his directions for their use, is quickened into health-distinger.

In this statement there is nothing presumptions. To the faith of the invails is made no representation that is not a thousand times substantiated by living and visible works. The theory of the cure by Pr. Schenck's medi-cines is as simple as it is unfailing. Its philosophy-requires no argument. It is self-assuring, self-convincing. The Sca-wesd Tonic and Mandrake Pills are the first two wrap-ne with which the citatel of the malady is assailed. Twe-thirds of the cases of consumption origi-mate in dayagesis and a functionally disordered liver.— With this condition the brouchial tubes "sympathize" with the stomach. They repond to the morbide action of the liver. Here then comes the culminating result, and the setting in with all its distressing symptoms of CONSHIMPTION.

CONSUMPTION. The Mandrake Pills are composed of one of Nature's noblest gifts—the Pob-phillum Peltatum. They possess all the the-describing, alterative properties of calomel, but unlike calomel, they

"LEAVE NO STING BEHIND."

A Supply of Good Blood.

A Supply of Good Blood.

The Seaweel Tonic, in conjection with the Pills, permeates and assimilates with the fool. Chylification is now progressing without its previous fortures. Digestion becomes painless, and the cure is seen to be at hand. There is no more flatulence, no exacerbation of the atomach. An appetite sets in.

Now comes the greatest Blood Purifier ever yet given by an indulgent Father to suffering man. Schenck's Pulmonic Syrup comes in to perform its functions and to hasten and complete the cure. It entert at once upon its work. Nature cannot be cheated. It collects and ripens the inspaired and diseased portions of the lungs. In the form of gathering, it prepares them for expectoration, and lot in a very short time the malady is variouslet, the rotten throne it occupied is renovated and made new, and the patient, in all the dignity of regained that was

that was

GIVEN UP AS LOST.

The second thing is, the patients must stay in a searm room until they get well; it is almost impossible to prevent taking cold when the lungs are diseased, but it must be prevented, or a cure cannot be effected. Fresh air and riding out, especially in this section of the country in the fall and winter season, are all wrong. Physicians who recommend that course lose their patients, if their lungs are badly diseased, and yet, because they are in the house they must not sit down quiet: they must walk about the room as much and as fast as the strength will bear to get up a goed circulation of blood. The patients must keep in good quirits—be determined to get well. This has a great deal to do with the appetite, and is the great point to gain.

To despoir of cure after such evidence of its possibility in the worst curse, and moral certainty in all others, is sinful. Dr. Schenck's personal statement to the Faculty of his own cure was in these modest words:

"Many yoars go! I was in the best stages of consumption; confined to my bed, and at one time my physicians thought that I could not live a week; then like a drowning man catching at straws. I heard of and obtaining the preparations which I now offer to the public, and they made a perfect cure of me. It seemed to me that I could feel them penterate my whole system. They soon ripened the matter on my lungs, and I would spit up more than a pint of effenive yellow matter every morning for a long time.

"As soon as that began to subside, my cough, fever, pain and night aweats all began to leave me, and my appetite became sogreat that it was with great difficulty that I could keep from eating too much. I soon gained my strength and have grown in fish ever epices.

"I was weighed shortly after my recovery," added the Doctor, "then looking his a mere skeleton, my weight was only minter-seven pounds; my present weight is two hundred and twenty-live [225] pounds. And for years have enjoyed uninterrupted health."

Dr. Schenck has discontinued his GIVEN UP AS LOST. Trade on the Tide Water Canal has been quite brisk, the last few days.

An iron bridge, spanning 75], has just been completed, over Deer Creek, at La Grange Iron Works, by Mr. L. W. Finley, contractor, at a cost to the county of \$2,000.

and patients can readily learn whether they are curable of not.

The directions for taking the medicines are adapted to the intelligence even of a child. Follow these directions and kind Nature will do the rest, excepting that in some cases the Mantrake Fills are to be taken in increased doses; the three medicines need no other accompaniments than the single instructions that accompany them: First create appetite. Of returning health hunger is the most welcome symptous. When it course, it will come, let the despairing at once he of good cheer. Good blood at once follows; the cough loosens, the night sweat is absted. In a short time both of these morbid symptoms are gone forever.

Dr. Schenck's medicines are constantly kept in tens of thousands of families. As a laxative or purgative, the Mandrake Fills are a standard preparation; while the Pulmonic Syunp, as a currer of coughs and colds, may be regarded as a prophylacteric against consumption in any of its forms.

EXECUTOR'S SALE.

In pursuance of an order of the Orphans' Court of Harford county, the subscriber, as Executor of Ann Archer, deceased, will sell at Public Auction, at Lapi-dum, in Harford county, at 12 o'clock, M., on THURSDAY, MAY 25th, 1871, he following parcels of Real Estate of which she died

lst. ALL THAT TRACT OF LAND, alled "Lapidum," situated at the head of sloop savigation on the Susquehanna river, containing 16 ACRES, MORE OR LESS, except the parcels heretofore disposed of. The part now offered includes ground rents on long leases, amounting to \$100, and verial leases \$75 per annum. Laploum is a thriving town, with the advantages of the Canal and river trade, and the unimproved property may be expected to increase in value.

21 A PARCEL OF WELL IMPROVED LAND, Containing about 50 Acres, situated on the Tide Water Canal, about mid-way be tween Rock Run and Stafford, adjoining the lands o Thos. H. Maddock, Samuel Deter and H. W. Archer. 24. ALL THAT

Tract or Parcel of LAND, situated near Rock Run Mill, in Harford county, now occupied and farmed by Henry Hilton, containing 150 ACRES, more or less, which will be sold altogether or in two parcels as may suit purchasers.

The improvements consist of a comfortable STONE DWELLING HOUSE, with Barrack, Corn House, &c.

4TH. A WELL SECURED CROUND RENT OF \$460 per annum, on property in Port Deposit, fronting \$22 ect on the river, under leave to J. J. Heckart and the P., W. & B. Railroad Company.

P., W. & H. Railroad Company.

TERMS OF SALE—The terms of sale prescribed by the said order are—that one-fourth of the purchase money shall be paid in cash on the day of sale, and the residue in three equal instalments at one, two and three years thereafter, with interest from the day of sale, to the paid hall yearly, and security approved by the Executor, or cash, at the option of the purchaser.

HENRY & ARCHER HENRY W. ARCHER, J. S. Richardson, Auctioneer. May 6, 1370—ta

NEW ADVERTISEMENTS.

All pursons are hereby forewarned from trespossing on the premises of Anthony Reyhold, in Grove Neck, Cwill county, Mi, of which I san tenant, as I intend to suffere the lew against all who may hereafter trespossing of the State of the Sta

INSECTICIDES. At this sesson, as persons are putting away Furs and recless, the question naturally arises, "What shall we se to prevent the ravages of the moth?" CORROSIVE SUBLIMATE,

an active poison, best suited for use on bedsteads an farmiture, and along the edges of carpets, in the form of CARBOLIC ACID. which destroys all the lower orders of plants and animals, is cheep and effectual, should be used in very dilute state, as it leares a tarry door behind, which though wholesome, is somewhat persistent.

PERSIAN INSECT POWDER GUM CAMPHOR.

E. Bringhust & Co., APOTHECARIES, Cor. 6th & Market Sts.,

ucezing.
It washes from one to twenty-five articles in from one of four minutes.
It washes the finest Larc Curtains, Handkorchiefs, &c.,
eithout any injury.
It washes whiter and more thoroughly clean than by
any other process, as strong currents of water are dashed
through every part of the falsic.
It will save three times its cost in a single year in
labor and west of clothes.
It reduces washday to an hour.

The King Washer is so called, if we are rightly in-formed, after the name of its inventor; but it may well assume the name are royal title, for it is destined to lord it over all competitors, and reign supreme in the Laun-dry. Its claims are everywhere acknowledged, and not culy are these who stood alsof from all washing ma-chines, but some who have been using other machines are replacing them with the King Washer.—Baltimore Gazette.

Gatette.

The King Washer arrived aufo on Friday evening; on Monday morning I had my "maiden" experience in washing. A peat-morten examination by experts of the family elicited the following results: one-fourth of the time, three-fourths saved; letter done and cleaner, assing (uncalculated) in the warr. The servants are delighted, and my wife and I are pleased. I will take great pleasure in recommending the King Washer—Chas L. TROUTMAN, Assist. U. S. Assessor, Richmond, Vo. The King Washer is so complete, and answers so well all the ends desired, that there is nothing more desired in this time saving, labor-saving machine,—Phila. Press.

Does it take all the dirt out? Try it, and we venture the assertion that you cannot find a piece of linen so soiled that the Kivo Wasner will not make clean as new in five minutes.—Boston Journal.

I take pleasure is adding my testimony to the good qualities of the KINO WASHER. It does its work well and effectually, and is undoubtedly one of the greatest labor-saving machines of the age.—Dr. J. H. Schener. 18 N. Sirih St. Phila. SPECIAL.

In the invention of the King Washen, it was designed that it should combine all the grossl qualities of every other washing methins, and at the same time to have not a single objectionable feature. Such a machine is the King; no rubbing, no wearing and teareng; and last, but not least, labor made easy. If you cannot purchase a Risu Washin in your place, send us the

RETAIL PRICE, \$15.00, and we will forward the same to you, free of freight, to places where no one is selling. If any one is not satis-fied, and wishes to return the machine after a month's trial, according to directions, we agree to

REFUND THE MONEY, tree of freight. 23 Sold by dealers generally, to whom liberal dis-

> 236 Water St., New York. WARRANTED. PROPOSALS FOR POST OFFICE ENVELOPES.

MANUFACTURERS.

Post Office Department, Washington, D. C., April 18, 1871.

FEALED PROPOSALS will be received at this Department until FRIDAY, the 19th day of May, 1871, at 12 o'clock M., for furnishing in such quantities and at such times as may be required, the following described Post Office Envelopes, for a period of two years, commencing on the let day of July, 1871, to wit: FOR OFFICIAL LETTERS AND RETURNS.

No. 1, size 314 by 514 inches; estimated number equired annually, 8,000,000. No. 2, size 31/2 by 63/2 inches; estimated number equired annually, 1,250,000. No. 3, size 4 by 9 inches; estimated number required No. 4, size 41/2 by 101/2 inches; estimated number required annually, 500,000. FOR REGISTERED PACKAGES.

No. 5, size 5 by 101/4 inches; estimated number required innually, 2,000,000. No. 3, size 5 by 10% inches; estimated number required annually, 2,000,000.

The estimates given are intended as a guide to bidders. The Department may require more or less of each kind, as the service may demand.

Bids must be made for each kind of Envelope separately, and the contract will be awarded, item by Item, to the lowest responsible bidder or bidders.

Specimen of the different sizes and styles of Envelopes required, together with blank forms for bids, will be furnished on a pplication to the Third Assistant Postmatter Geosral.

The Envelopes must strictly conform in size, quality of paper, gunnning, and make, to the samples, the gunning on the fispe or laptets to be done in the best manner by hand. The Envelopes must be landed in parcel of twenty-fire, packed in strong parteboard or straw boss, securely bound with linen or cotton cloth on the sermers and sejers, each to contain not less than 200 of sizes Nos. I and Z, and not less than 100 of the other sizes, or otherwise, as may be ordered, the locus to be wrapped in strong manilla paper, and properly scaled, so as to bear asfe transportation by mail to postmasters. When required to be delivered at the Department, the wrapping may be dispensed with, in the discretion of the Postmaster General.

When 3,000 or more Envelopes are required to fill the order of a postmaster, or when large lots are ordered to be sent to the Post Office Department, they must be packed in strong weoden cases and properly addressed, but when less than 2,000 are required to be sent by mail proper labels of direction must be placed on each package; all to be done by the contractor without additional charge.

The Envelopes must be delivered in such quantities.

proper labels of direction must be placed on each passage; all to be done by the contractor without additional charge.

The Earylopes must be delivered in such quantities as may from time to time be required to fall the orders of posimisaters or of the Departitient, and the delivered either at the post office in the city where the accepted idder resides or at this Department, as the Postmaster General may direct, free of cost for packing, labeling, and delivering; the whole to be done under the inspection and supervision of an agent of the Department. All the Eurelopes therein described must bear such printing as the Postmaster General may direct, and the Registered Package Envelopes will be required to be iprinted in Vermilion or some other approved brilliant color.

The Postmaster General reserves the right to reject any and all bids, if in his judgment the interests of the Government require it.

Each proposal must be signed by the individual or firm making it, and be accompanied by a guarantee certified to be responsible and sufficient by the Postmaster or United States Attorney where the bidder resides that the bidder shall, within ten days after being called upon to do so, execute a contract to furnish promptly, and in quantities as ordered, the articles or articles awarded to him, to be accompanied by a bond, with approved seen rity, in a penalty of not less than twice the contrac price of all the articles estimated to be furnished by said bidder, conditioned upon the faithful performation of the same.

Proposals unaccompanied by such guarantee will no

of the same.

Proposals unaccompanied by such guarantee will nobe considered.

Proposals unaccompanied by such guitantee will not be considered.

The Postmaster General reserves to himself their ights annul the centract, if in his judgment there shall be a fallure to perform faithfully any of itsetipulations, or in case of a wifel attempt to impose upon the Department Entelopes inferior to samples. The failure to comply with any one order under the contract will operate as a forfeiture of the entire penalty of the bond under the 11th section of the act of Congress approved August 26, 1842, entitled "An act legalizing and making appropriations for such necessary odjests as have been usually included in the general appropriation bills without anthority of law, and to fix and provide for certain incidental expenses of the Departments and offices of the Government, and for other purposes," (U. S. Statutes at Large, Vel. 5, page 226;) or the Postmaster General may, in his discretion, direct the purchase in open market of such quantities of Enrelopes as shall be necessary to supply the deficiency caused by such failure and charge to the contractor or contractors fifty per centum of the price which it shall be found necessary to pay for such articles.

Bid should be securely enveloped and scaled, marked

of the price water and the model of the price water and the model of t April 22, 1871-iw.
