"Rome at Home and Abroad."

Under this caption George Curtis, in a \$15, costing nothing, in the meantime, but recent number of Harper's Weekly, pub. herding, which is not expensive. lishes an editorial, part of which we copy below. The large number of Presbyterians and Methodists in this county-especially the former denomination-who cast in their ballots with the Jesuit influence which two flouring mills, and factories of difis assuming control of the Democratic party of this country, since the fall of slavery, taken a coal mine, paying a royalty of \$2 will find much to ponder and reflect upon, contained in this short extract. That the facts there stated are true to the letter, we contracted with them to deliver daily 100 think no candid, well-informed reader will tons on the ground. The Kansas Pacific attempt to deny. It is time the influential Road has contracted with them to furnish members of these denominations should begin to think and seriously examine where their hereditary politics is leading them, and into whose hands they are likely to found on every hand, some specimens of fall. To every impartial mind, nothing is which I brought with me; but with two clearer than that every vote they cast for exceptions, have not been found profitable the Democratic party is an atom of power placed in the hands of the Pope, surrounded the consequences of which to Republican Colorado has here a market for her grain Government and free schools is briefly and vegetables for some time to come, pointed out in this extract:

farmer can raise. "But the most striking fact of all is that, while the most vigorous protest against the action of the Vatican Council, virtually claiming for the Pope the civil allegiance of every member of his church in the world, Black Hawk, equal to Golden. up the canon, behind as fine a pair of of every member of his church in the world, proceeds from Roman Catholies in the European monarchies, the most unanimous and servile acquiescence in it is found among the Romanists of the American republic. This acquiescence is so complete that they have, with one exception in the priesthood, and he was peremptorily silenced, bitterly denounced the peaceful revolution in Rome which has placed the Government in the hands of the Romans. And still more significant and important is Government in the hands of the Romans. And still more significant and important is the fact that the political party in this country which claims by its name, Democratic, to be peculiarly the party of the peoples, allies itself with this Roman Catholic element, and it is because of this alliance that Father Hecker and the priest whom Mr. Parton mentions cherish the warmest hopes of the supremacy of their Church in this country—a supremacy of the agra? Whisky and over it was a 2nd or I Church in this country—a supremacy which would necessarily be the overthrow of free popular government. In 1800 the Roman Catholics were about one-seven-teenth of the whole population. In 1870 they were one-sixth. In 1900 they hope to

Returned to Denver at

they were one-sixth. In 1900 they hope to be one-third.

This population is mainly of foreign birth, or of one or two removes. It has necessarily no strong American feeling. It is, with signal and admirable exceptions, an ignorant and superstitious population. It is compact and obedient to ecclesiastical leaders. Those leaders truly say with Byron, although in another sense, 'O Rome, my country!" They live for one object—the supremacy of their Church. They understand the methods of acquiring and maintaining it. Their purpose is relentless; their vigilance unsleeping. A political party, therefore, which, like the Democratic, has sustained itself upon ignorance, class hatred, and prejudice, steadily disregarding the moral law and the American doctrine of liberty, finds this rapidly increasing multitude exactly suited in the bank trying to pull it out with a cane, political party, therefore, which, like the Democratic, has sustained itself upon ignorance, class harred, and prejudice, steadily disregarding the moral law and the American doctrine of liberty, finds this rapidly increasing multitude exactly suited to its purposes. It has, as a class, no American instincts, little intelligence, and all the passions of ignorance; and by pandering to its desires the party can secure its vote. Hitherto the political policy of this Church in this country has been the assault upon the public school system. Whenever that has been made, it has been made by the Democratic party, and, as the consideration of that and other favors, that party has had the Roman Catholic vote.

This is a fact too conspicuous and significant to be disregarded. The success of the Democratic party would be that of the Roman Catholic policy in this country; for the party could not safely alienate the Roman vote, while it could be retained only by the strictest obedience to ecclesiastical dictation. So true is this that there can be noquestion if the Roman interest demanded that, pending the overthnow of the schools in this city, (New York) now under Democratic party at this moment is upon the Ku-klux feeling both in the Northern and Southern States, and the Roman Catholic vote. Lett-every American citizen consider what that implies."

Water implication of the Randymine, a little child full into the race, a place deep enough to drown a little child but not a man. A man, who saw it fall, ran along the bard of won on usit the bank trying to pull it out with a cane, as it floated down for some distance in the saw it floated down for some distance in the saw it floated down for some distance in the saw it floated down for some distance in the saw it floated down for some distance in the saw it floated down for some distance in the saw it floated down for some distance in the saw it floated down for some distance in the saw it floated down for some distance in the saw it floated down for some distance in the saw i

Roman Catholic vote. Let every American citizen consider what that implies."

LETTER FROM COLORADO. NO. II.

Mn. Editor:—Having been repeatedly asked the expenses of my trip, I give them as full as space will permit. This, of course, does not include drinks or cigars. The expenses were, from Elkton to Denver and back, including sleeping car, meals and fare, within a fraction of two hundred dollars.

Reaching Denver Monday morning, as tested in lest letter I started on the Denver inclined to sympathise with Mr. Homewood, because of his many responsibilities, he stated that he had brought over with him \$33,000 in gold, which he thought was sufficient to keep the wolf from his door, and

Reaching Denver Monday morning, as stated in last letter, I started on the Denver Pacific Railroad for Eric, the terminas of the road, where large and profitable coal mines are being worked by the Boulder Valley Company; and through the politeness of Major Hill, of California, I was shown through the mines, which are said to be inexhaustible.

From this point I took track to Tongment the kine of the road Chicago galaxy.

\$33,000 in gold, which he thought was sufficient to keep the wolf from his door, and had also purchased a farm near Wilmington, Del., where he proposed to settle.

A negro named Wm. Townsend, who like just the proposed to settle. A negro named who converted of setting fire to a hay stack, escaped from Dover jail last week by jumping down the sink and scratching his way through the fillth to the open air. He had leg-irons on.

The Matual Friend says:—Mr. David Mills, who has 120 fathoms of net, and fishes at Cedar Beach, caught, at one haul,

From this point I took track to Tongmont, the site of the new Chicago colony, a distance of seven miles from Erie.—
From this point I had one of the most beautiful mountain views to be seen in Colorado. Nearly opposite Long's Peak, the tall projecting peaks of Pike's Peak are seen plainly from here, although more than two hundred miles away.

Mills, who has 120 fathons of net, and fishes at Cedar Beach, caught, at one hand, on Wednesday 3d inst., 260 bushels of trout, 125 stingers, 68 sharks, 12 drums, and a few cart loads of old wives. Those who never smell salt water may pronounce this a "fishy" story; but we are prepared to back it with living witnesses.

The steamer Hereales, loaded with coal, sunk in the bay, near Georgetown, on Wednesday of last week.

It was a clear, bright, still day where we were, while on the mountains above, raged a furious snow storm, which keeps them covered with snow the year round; and it is from this snow melting in the warm weather, and running from the mountain sides, that the streams are higher in the dry season than in the wet, and which furnishes water for irrigation, thus bidding defiance to drouth, which one year out of four, takes a crop from the Kansas farmer. Irrigation is a complete success, costing less than draining; for with a fall of nineteen feet to the mile from the mountain east, they are enabled to carry water to the highest points in the Territory.

Shortly after arriving at Longmont Judge Terry, of Michigan, well known during the war, remarked to me that there was an Elkton lady in the settlement .-Imagine my surprise, 2500 miles from home, at the foot of the Rocky Mountains, a resident of Elkton,-a lady, at that. Ask. day evening last. ing where I could find her, he pointed over to a garden close at hand, where I found Mrs. Duncan, widow of the late Rev. J. McKim Duncan, Presbyterian minister in Elkton. Mrs. Duncan is building a house, has a nice place, and will in five years be rich, beyond a doubt. She sent her love to many Elkton friends.

After a day's ride through the prairie, where we found the small lakes filled with wild geese and ducks; the land alive with the jackass rabbit, whose ears are six inches long, and can run with the speed of a greyhound. Here, too, we found the little prai. rie dog village living in peace with the rattlesnake and owl.

Returned to Denver at five o'clock next day. That evening I had an introduction to the leading business men of the city.—
The heavy stock of goods of all kinds on the heavy stock of goods of goods of all kinds on the heavy stock of goods of goods of goods of goods of goods of goods hand, would surprise an eastern merchant. hand, would surprise an eastern merchant.

Handsome brick stores, beautiful residences, Denver, with her 8,000 permanent, and 12,000 floating population, is a city of no mean pretensions. Here I was shown some of the finest beef I ever saw killed off grass. Cattle thrive the year round.—

The Easton town election, on the 1st inst., for a Town Commissioner, to serve from from limite Crystal Pebles, melted together, and 12,000 floating population, is a city of no mean pretensions. Here I was shown some of the finest beef I ever saw killed off grass. Cattle thrive the year round.—

Democrats. Twenty-two colored voters cast their ballots.

> TRIBUTE OF RESPECT. WHEREAS, Bohemia Lodge, No. 68, I. O. O. F., on Friday morning, 5th Instant, was called on to attend the fineral of our dece osed brother, Josev Cleaver, who, in the dispensation of the Divine Providence of Almighty (God, was summoned away from friends and relatives, in the prime of life and matheod, to that "undiscovered country from whose bourne no traveler returns."

He wore the mystic chain, Its links kept ever bright— Not a blemish, not a stain, Dimm'd its golden light. We moved on to the graveyard— Our brother's soul had fiel; The hearts of many mourners Followed close behind the dead.

There was gloom upon each feature— There was salness in each eye, In the busy town of Elkton, As we passed slowly and sadly by. We moved on to the graveyard, In emblematic colors chel, But each step was slow and heavy, For each suxious heart was sal.

The road was long and weary, From Eikton to Hickory Grove, Where we deposited our deceased brotler, In friendship, truth and love.

There in hearenly peace, we trust,
Our brother may repose,
Till released from earth and dust,
We meet again above.

12 ACRES, 20 PERCHES, valuable for building lots.

The farm is under god for ing, and is in excellent condition. The lam is not excellent quality, and early rilled—with sufficient timber for forcing purposes and home use. All persons desiring a goal farm, located in a healthy neighborhood, and at convenient distances from railroads, churches, schools and markets, should examine this farm before purchasing elsewhere. The farm is located near the village of Birk Meeting House, seven miles from North East, a depot on the Phil, Whimington & Bultimore Reilroad, four miles from the Rising Sun, and six miles from Ortof, Pa, depots on the Baltimore Central Railroad.

TERMS OF SALE—One-haif cash on the day of sale.

REUBEN HAINES,

May 13, 1870—ts

True copy; test, may 13, 1871—1m To Breeders of Trotting Horses. Having realized my expectations in the get of my SIR CECIL.

I offer his services for this season, confidently believing him to be the lest Horse ever offered to breeders of Trotting Stock in this section, and of the most fashbandles blood; greater speed, and higher prices being paid for Hambletonian Horses than any other strain of stock produced in this or any other country. That several of his colts coming three years of the which for style and speed cannot be excelled, if equaled by any in the country. I will take pleasure in thoseing them to gentlemen who have more to serve.

His renowned sire, Rysdyke Handbletonian, not only produced stock of extraordinary speed, but all his colts By virtue of a Decree of the Circuit Court for Cecil county, sitting as a Court of Equity, in a cause wherein James A. Davis and Joseph B. Pagh, pattners trading under the name and firm of Davis & Pugh, are complainants, and Sophia M. Christie and others are defendant, the undersigned will offer for sale, for the purpose of partition, on

take pleasure in showing them to gettlemen who have marked to serve, the undersigned will ofter for sale, for the purpose of partition, on the court flours door, in Ekton, Cerl county, M. at the Court flours door, in Ekton, Cerl county, M. at the Court flours door, in Ekton, Cerl county, M. at 2 o'clock F. M., all that Valuable

Mill Property and Real Estate, of which a certain John S. Christie died sized, as train in common with the sail Davis & Pugh, situate, lying and being at the mouth of Basin Run, on the Octoratorek, and containing

35 Acres of Land, More or Less.

The improvements consist of a large STONE of the very best in machinery, and is in every way one of the very best in machinery, and is in every way one of the very best in machinery, and is in every way one of the very best in machinery, and is in every way one of the very best in the country, and the context of the improvements consist of a large stone of the very best in the country, and the country of the improvements consist of a large stone of the very best of the improvements consist of a large stone of the very best of the improvements consist of a large stone of the very best of the improvements consist of a large stone of the very best of the improvements consist of a large stone of the very best of the improvements consist of a large stone of the very best of the improvements consist of a large stone of the very best of the large of the larg

BERTON, Md.

RENOVATE YOUR FEATHERS, And remore a most prevalent cause of disease. The New Machine, patented September 24th, 1867, by 0. C. Monrie, will most effectually accomplish this, without the least possible injury to the Feethers.

Mrs. M. A. J. NELSON'S. april 29, 1871.

The subscriber offers to the citizens of PORT DEPOS I and vicinity a rare chance to avail themselves of the unparalleled benefits of this unrivaled

FEATHER Dressing & Renovating Machine, the most successful patent of the kind ever offered to the public. And I venture the prediction that it never will be excelled, for it proves to be exactly what all conditions and qualifies of Feathers, from entirely new to old and much worm, need to render them as perfect as age, quality and condition will admit of their being made. The Cleansing is done entirely by

Carbolic Acid; giving the appearance and essential qualities of NEW FEATHERS, and relieving them from all liability to motic by the renoval of all gummy and glutinous matter from the quill.

Our facilities are such that by short notice we can take and return lieds the same day, well dressed, realy for immediate use, for

the action of Steam & Vaporized

Two Dollars per Bed. Physicians and scientific men in hundreds of town throughout the United States, who have had Feather Cleaned by this process, have given it the very higher recommendations.

Ap-Feathers called for an I returned in town without JOHN B. DUNBAR, LEVI F. BOULDEN, Operator, mar 25, 1871-4f

preezing. It washes from one to twenty-five articles in from one four minutes. It washes the finest Ince Curtains, Handkerchiefs, &c., without any injury.
It washes whiter and more thoroughly clean than by
any other process as strong currents of water are dashed
that are three times its cost in a single year in
all reduces as were of clothes.
It reduces washely to an hour,

The King Washer is so called, if we are rightly in-formed, after the name of its inventor; but it may well assume the name as a royal title, for it is destined to lord it over all competitors, and regin supreme in the Laun-dry. Its claims are everywhere acknowledged, and not only are those who stood alor from all washing ma-chines, but some who have been using other machines are replacing them with the King Washer.—Battimore Gazette.

The King Washer arrived safe on Friday crening; on Monday morning I had my "madden" sperience in washing. A peat-morton examination by experts of the family elicited the following results: one-fourth of the time, three-fourths saved; better done and cleauer, a saving (uncalculated) in the wear. The servants are delighted, and my wife and I are pleased. I will take great pleasent in recommending the King Washer -Chas L. TROUTMAN, Assist. U. S. Assessor, Richmond, Va. The King Washer is so complete, and answers so well all the ends desired, that there is nothing more desired in this time-saving, labor-saving machine —Phila, Press.

Having purchased one of your King II asking machines, and practically tested its capacity for economy of time and laber, and also its cleansing properties, I do not herefully to say it will do all you claim for it, and I will cheefully recommend it to my friends to be the best washing that his I have ever seen.—J. W. LOANE, CT W. IYett St., Ealt.

Does it take all the dirt out? Try it, and we venture the assertion that you cannot find a piece of linen so soiled that the Kiva Washin will not make clean as new in five minutes.—Boston Journal. I take pleasure is adding my testimony to the good qualities of the King Washer. It does its work well and effectually, and is undoubtedly one of the greatest later-saving machines of the age.—Dr. J. H. Schener, 15 N. Sieth St., Phila. SPECIAL.

In the invention of the Kixu Washen, it was designed that it should combine all the good qualities of every other washing machine, and at the same time to have not a single objectionable feature. Such a machine is the King; no rubbing, no wearing and teareng; and last, but not least, labor made cast.

If you cannot purchase a Kixu Washen in your place, send us the RETAIL PRICE, \$15.00, and we will forward the same to you, free of freight, to places where no one is selling. If any one is not satis-fied, and wishes to return the machine after a month's trial, according to directions, we agree to

REFUND THE MONEY. Er Sold by dealers generally, to whom liberal dis-King Washing Machine & Manuf. Co., 1109, 1111, 1113 Miller Street, May 6, 1871-1y. PHILADELPHIA
