## LOCAL AFFAIRS.

of our readers have seen the remarkable bird, which was slightly wounded and captured by James B. Groome, Esq., in September, 1867, and which has since been on exhibition at the Drug Store of Arthur W. Mitchell, Esq., of this town. This bird, although unmistakably of the blackbird, or Starling species, by a remarkable lusus natura, had, when first captured, a white feather for every black one usually seen on birds of its class, but had the unmistakable red spot at the joint of each wing, while the bony substance of the beak and legs was white instead of black as in other birds of the Starling species. At each moulting season since this bird was captured, it has gradually changed its color, until the feathers that were white, were at last replaced by others of a light fawn color, while the red spots on the wings became each year larger and more beautiful. This bird died on Tuesday last, and Mr. Groome has sent it to Philadelphia to be stuffed, intending to have it preserved in some collection of rare birds, as a standing proof that such a thing as a veritable "White Blackbird" has existed.

A New Series of Stock to the Mutual Building Association, of Elkton, will be issued, commencing with the June payment, and persons who desire an opportunity to make a safe and profitable investment, should secure a few shares of the new series. The past ten months of the Association's business, after deducting all expenses for books, etc., incident to organizing the Society, shows a profit of 14 per cent. on the money paid in. Next year, being comparatively clear of expenses necessary at the commencement, and having the accumulation of interest on the first year's investments, in addition to the dues, premiums, etc., of the current year, it is obvious that the profits of the Society will be much larger.

Special notice will be given when the new series is prepared, which will be in a week or two. Persons who take stock in the Mutual Association, can draw their money paid in, at any time, and receive six per cent. interest on the same for the time their funds remain in the Association; thus providing one of the safest and most profitable Savings Banks that was ever established. Persons who have no desire to remain members of the Association till its close, but who wish a safe and profitable investment for their monthly earnings, will find one of the very best in this Asso-

The Peninsular Academy .- On Saturday evening last, an adjourned meeting was held in the Court House, in the interest of the proposed Peninsular Academy, which it is contemplated by the M. E. Church to build.

David Scott, Esq., County Clerk, was called to the chair, and Dr. James Frazer appointed Secretary. The object of the Hon, J. A. J. Creswell, Hon. Hiram McCul-Mackall, Dr. C. M. Ellis, Jas. B. Groome. Esq., H. R. Torbert, Esq., David Scott, John Partridge, W. Torbert, Daniel Bratton, W. J. Jones, Esq., and John Perkins,

The Committee appointed by Conference. which has the matter in charge, met at Wilmington on Wednesday last, to receive the report of the Sub-Committee, whose duty it was made to examine the various localities proposed for the site of the College. After a lengthy discussion the Commission appointed by Conference to fix upon the site, adjourned till Wednesday, 21st of June, at which time it is proposed to make a selection for the proposed Col-

A Heroine.-From the following account. taken from the Lancaster Inquirer, it will rauch. We hope they will have some little be seen that the lady to whom Mr. Wm. Bonsal, of Rising Sun, was recently mar-

ried, was a heroine of the late war : Mr. Bonsal is the same who gave the information to Gen. Sheridan which led to the battle of Winchester, on the 17th of September, 1864, and the total defeat and route.

We will give a good entertainment. The Cowards will give a good entertainment. The Cowards will give a good entertainment.

troops. They were well known and universally esteemed by the officers and roldiers of the Federal army, both for their excellent character and whole-souled devotion to the Union cause. They were members of the Society of Friends, and in Virginia a rebel Quaker was as rare a thing as a white black-bird.

We have the every true hearted Union

The Elkton Building Society meets tonight.

The County Commissioners were in session on Tuesday and Wednesday last engaged in examining and passing accounts prepatory to the next annual levy.

By reference to advertisement, it will be seen that the Feather Bed Renovator has removed to Port Deposit.

This vicinity was visited by a heavy frost and ice, on Thursday morning last.

New potatoes made their appearance in purpose. He was kept in the station over the analyse of the mandments to assemble ourselves together. We must know therefore it is our duty to worship God publicly. The instituted ministry is conclusive proof that the people shall assemble together, to hear the word. There is also great advantage in public religious gatherings. Most of those who are convicted and converted are so in the public congregation. The available appliances are hereathen—the exhortation, the prayers of the clurch, the praises of his people-making it more favorable for such important work. It is an advantage also to meet in public to get stimulated, encouraged and comforted, after home and purpose. He was kept in the station over we sing, "It is good for us to be here."

We should not neglect the closet, the family altar, or indeed to worship him everywhere; but especially let us meet in public. where; but especially let us meet in public. It is also an advantage to perpetuate christianity. It is both a privilege and duty for the people living in this neighborhood to meet in this public worship. You cannot safely remain away from the Sanctuary. This cannot always be done in the open air. We must build houses for that purpose.— We want a Church here. Everybody can take part in this matter, either by work or money. If so, the enterprise will be completed with ease. Do what you can, and God will help you. The cable is composed of many little strands too weak alone to hold the ship, but when together the storm cannot break them. Apply the illustration to the Church here, and you will be successful. Let the grace of God in your heart receive proper ventilation by giving means and

ical Seminary, at North East, occupied the Presbyterian pulpit in the afternoon of the same day. Communion services at the Presbyterian Church next Sunday morning.

Our Prospectus.—Rev. Mr. Poulson takes possession of the new parsonage on next Thursday. How Zion improves! Already we hear the rumor of a strawberry festival to be held at Zion, during the very first of the strawberry season. Mr. Vanarsdale, judging from the thriving appearance of his plants, will be able to supply the "one thing needful."

One of our Neighbors.—Bay View has got its hotel whitewashed, and has an Itemizer for the Rising Sun. The summum bonum of whose letter to that spirited little sheet was, that the Zion Itemizer had dropped a shoe in his way, which, on first trial, fit charmingly, but, when worn a little longer, pinched so abominably that he must needs soul "toy Macedonia" for sympathy.

Poisonous Medicines. I i wite the public to give mea call. Having spent eleven years in the business, I feel assured I can please all tastes. The theory that the virus of disease can be safel counteracted by doses of poison, is false and dangerous. Within the last twenty-five years, not less than a score the medical profession. They are given in small dose otherwise they will destroy life immediately; but even in minute quantities, they produce, ultimately, very disastrous effects. It is unwise and unphilosophical to employ, as remedies, powerful and insidious drugs which, in subjugating one disease, sow the seeds of an other still more unmanageable. None of these terrible medicaments operates with as much directness and cer tainty upon the causes of disease as Hostetter's Stomach Bitters, a tonic and corrective, without a single deleter tous ingredient in its composition. Arsenic and quint put this stone to tell of the past. We deposite tributes herein also to express a sublime faith in our holy christianity, that somewhere down in the future, coming generations may look on them with quaint and curious gaze. We are sending messages to those who may comefafter us. Other lips will glorify God in this new temple, when we sleep with our fathers. This is done as to God. If so, he will set up Christ as the Corner-stone in many of your hearts, and in the hearts of your children. May God grant it for his name sake.

But I H Johns said this building your tell for his name sake.

> CLEAR AND HARMLESS AS WATER. Nattan's Crystal Discovery for the Hair

A perfectly clear preparation, in one bottle, easily applied as water for restoring to gray Hair its natural color and youthful appearance; to eradicate and present dandruff; to promote the growth of the Hair and stop its falling.

It is knikely harmless and perfectly free from any poisonous substance, and will, therefore, take the place of all the dirty and unpleasant preparations now in use. Numerous testimonials have been sent up from many of our most prominent citizens, some of which are subjoined; in everything in which the articles now in use are objectionable, Cristal, Discovery is perfect; it is warranted to contain neither Sugar of Lead, Sulphur or Nitrate of Silver. Clear and clean as water, it does not woil the clothes or scalp; it is agreeably perfumed, and makes one of the best dressings for the hair in use; it restores the color of the hair more preparation, and always does so, in from three to ten days. Virtually feeding the roots of the latir with all the nonishing qualities necessary to its growth and healthy condition, it restores the decay and induces a new growth of the hair more positively than anyother goweth for the hair more positively than anyothers appleasant and cooling effect on the scalp, and gives the hair appleasant and elegant appearance.

Washington, August 2th, 1870.

Mr. Anthun Natrans—D ar Sir: I do not hesitate t say that your Crystal Discovery deserves to supercel-all other preparations claiming to restore the growth and color of the hair. There used it a week, now, an my hair lass already resumed its natural shade, and he ceased feliag almost entirely. I cheerfully recommet it. Respectfully, MRS, ANNIE MOURAIN.

2.3-We call special attention to the fact that a limited number of trial bottles will be given away gratuitously to those wishing to try. You will notice that in pursuing this course, our aim is to convince by the actual merits of the article.

ARTHUR NATTANS, Inventor and Proprietor, Feb. 1, 1871—1y Washington, D. C. For sale by H. H. Mirchell, Elkton, and N. B. Morri 10N, North East.

CONSUMPTION.

ITS CURE AND ITS PREVENTIVE.

BY J. H. SCHENCK, M. D. Many a human being has passed away, for whose death there was no other reason than the neglect of known and indisputably proven means of cure. Those near and dear to family and friends are sleeping the dreamless simular into which, had they calmly adopted WILMINGTON, DELAWARE.

DR. JOSEPH H. SCHENCK'S SIMPLE TREATMENT and availed themselves of his wonderfully efficacious medicines they would not have fallen. Dr. Schenck has in his own case proved that wherever sufficient vitality remains, that vitality, by his medicines and his directions for their use, is quickened into health-ful visor. China, Glass, Queensware,

and his directions for their use, is quickened into healthful vigor.

In this statement there is nothing presumptuous. To the faith of the invalid is made no representation that not at thought the substantiated by living and visible works. The theory of the cure by Dr. Schenck's medicines is as simple as it is unfailing. Its phiosophy requires no argument. It is self-assuring, self-convincing. The Scaweed Tonic and Mandrake Pills are the first two weapons with which the citadel of the inalady is assailed. Two-thirds of the cases of consumption originate in dyspepsis and a functionally disordered literaction of the literaction of the literaction of the liter. Here then comes the culminating result, and the setting in with all its distressing symptoms of IVORY HANDLE CUTLERY, CONSUMPTION.

The Mandrake Pills are composed of one of Nature's noblest gifts—the Podophillum Peltatum. They possess all the blood-warching, alterative properties of calomel, but unlike calomel, they

"LEAVE NO STING BEHIND." The work of cure is now beginning. The vitiated and inucous deposits in the bowels and in the alimentary canal are ejected. The liver like a clock is wound upon it arouses from its torpidity. The stomach acts responsively, and the patient begins to feel that he is getting at hot

The Sea-weed Tonic, in conjuction with the Pills, permeates and assimilates with the food. Chylification is now progressing without its previous tortures. Digestion becomes painless, and the cure is seen to be at hand. There is no more flatulence, no exacerbation of the stomach. An appetitie sets in.

Now comes the greatest Blood Purifier ever yet given by an inhalgent Father to suffering man. Schenck's Palmonic Syrup comes in to perform its functions and to hasten and complete the cure. It enters at once upon its work. Nature cannot be cheated. It collects and ripens the impaired and diseased portions of the lungs. In the form of gatherings it prepares them for expectoration, and loi in a very short time the malary is vanished, the rotten throne it occupied is renovated and made new, and the patient, in all the dignity of regained that was

GIVEN UP AS LOST. A Supply of Good Blood.

GIVEN UP AS LOST.

The second thing is, the patients must stay in a warm room until they get well; it is almost impossible to prevent taking cold when the lungs are diseased, but it must be prevented, or a cure cannot be effected. Firsh air and riding out, especially in this section of the country in the fall and winter season, are all wrong. Physicians who recommend that course lose their patients, if their lungs are bodly diseased, and yet, because they are in the house they must not all down quiet: they must walk about the room as much and as fact as the strength will bear to get up a good circulation of blood. The patients must keep in good apritis—be determined to get well. This has a great deal to do with the appetite, and is the great point to gain.

To despair of cure after such evidence of its possibility in the worst cases, and moral certainty in all others, is sinful. Dr. Schenick's personal statement to the Faculty of his own cure was in these modest words:

"Many years ago I was in the last stages of consumption; confined to my bed, and at one time my physicians thought that I could not live a week; then like a drowning man catching at straws, I heard of an I obtaining the preparations which I now offer to the public, and they made a perfect cure of me. It seemed to use that I could not live a week; then like a drowning man eatching at straws, I heard of an I obtaining the preparations which I now offer to the public, and they made a perfect cure of me. It seemed to use that I could not have a good and they made a perfect cure of me. It seemed to ine that I could for them penetrate my whole system. They soon ripened the matter on my lungs, said I would spit up more than a pint of offonie's yellow matter every morning for a long time.

"As soon as that began to subside, my couph, fever, GIVEN UP AS LOST.

priors than a pint of efficiency yellow matter every morning for a long time.

As soon as the state of the subside, my cough, fever, pain and hight waste all began to beate me, and my appetite because operat that it was with great difficulty that I could keep from eating too much. I soon gained my trength and had proposed to make the soon gained my trength and had proposed to make the soon gained my trength and the last grant for my several me.

I state the last grant for my several my regist was only in the proposed my regist was only in the power of the my several weight is two had not been supported in the subside of the propositional visits to New York and listen. Here this say, Dr. J. H. Schenck, Jr., attil continue to see patients at their office, No 15 North Sight atreet, Philodelphia, every Saturday, from 9 a. M. to 3 r. M. Those who wish a thorough examination with the Respirometer will be charged \$500. The Respirometer declares the exact condition of the lung, and patients can readily learn whether they are curable or not.

The directions for taking the melicines are adulted to

to fill the air with fragrance.

—The recent cold storm drove the fish to deeper water, and our fishermen have in consequence been taking the finny tribs to deeper water, and our fishermen have in consequence been taking the finny tribs to deeper water, and our fishermen have in consequence been taking the finny tribs to deeper water, and our fishermen have in consequence been taking the finny tribs to deeper water, and our fishermen have in consequence been taking the finny tribs to deeper water, and our fishermen have in consequence been taking the finny tribs to deeper water, and our fishermen have in consequence been taking the finny tribs to deeper water, and our fishermen have in consequence been taking the finny tribs to deeper water, and our fishermen have in consequence been taking the finny tribs to deeper water, and our fishermen have in consequence been taking the finny tribs to deeper water, and our fishermen have in consequence been taking the finny tribs to deeper water, and our fishermen have in consequence been taking the finny tribs to deeper water, and our fishermen have in consequence been taking the finny tribs to deeper water, and our fishermen have in consequence been taking the finny tribs and director to fill the vacancy caused by the death of A. Rittenhouse.

—Some of our peach growers are quaking in fear that the cold weather has injured the crop.

EXHIBITION—REPETITION.

JACKSON HALL, May 6th, 1871.

MR. EDITOR:—The Exhibition and Concert here was a success, so far as the performance was concerned, but owing to unfavorable weather, it was not entirely successful as a paying enterprise. However, it is not for mortals to command success: the best they can do is to deserve it in fair demand. 10,000 head sold at \$30.475 per head, as to quality.

Solling Jayle, can be proported existing the medicines are adalated to refer the lungs, and patients can readily learn whether they are carable and in the death of A. Rittenhouse.

The directions for taking the medicines are adalated to refer the low as TIFFANY & Co., and BALL, BLACK & CO., of New York; BAILY &
